#### HUNTINGTON BANCSHARES INCORPORATED REPORTS RECORD QUARTERLY EARNINGS

#### Results Include 56% Year-Over-Year Increase in Net Income and 21% Year-Over-Year Increase in EPS

COLUMBUS, Ohio – Huntington Bancshares Incorporated (NASDAQ: HBAN; www.huntington.com) reported net income for the 2017 second quarter of \$272 million, a \$97 million, or 56%, increase from the year-ago quarter. Earnings per common share for the 2017 second quarter were \$0.23, up \$0.04, or 21%, from the year-ago quarter. Excluding approximately \$50 million pretax of FirstMerit acquisition-related net expenses, or \$0.03 per common share after tax, adjusted earnings per common share were \$0.26. Tangible book value per share as of 2017 second quarter-end was \$6.74, an 8% year-over-year decrease and a 3% increase from 2017 first quarter-end. Return on average assets was 1.09%, return on average common equity was 10.6%, and return on average tangible common equity was 14.4%. Total revenue increased 37% over the year-ago quarter.

"We are very pleased with our record second quarter earnings, which illustrates tangible progress to deliver top tier regional bank performance," said Steve Steinour, chairman, president, and CEO. "The improved earnings power of the company is a result of the successful integration combined with organic growth. The recent results of the annual DFAST and CCAR exercises demonstrate our disciplined underwriting and risk management to maintain our aggregate moderate-to-low risk profile."

"We remain focused on core deposit growth, and actively manage our balance sheet in the face of rising short-term interest rates. Loan growth in the second quarter benefited from strong consumer loan production, particularly residential mortgage and auto," Steinour said.

"With the FirstMerit integration nearly complete, we are focused on growing revenues through deepening existing customer relationships, gaining market share via new customer acquisition, and executing on the revenue enhancement opportunities from the acquisition. The successful conversion, particularly with respect to consumer deposit retention, positioned us to re-examine our physical distribution network for additional efficiencies, resulting in the recently-announced consolidation of 38 branches and 7 drive-through convenience locations to be completed during the 2017 third quarter."

Huntington today also announced the Board authorized the repurchase of up to \$308 million of common shares over the four quarters through the 2018 second quarter. The share repurchase plan was proposed in the 2017 CCAR capital plan, which received no objections from the Federal Reserve. Purchases of common stock under the authorization may include open market purchases, privately negotiated transactions, and accelerated repurchase programs.

#### Specific 2017 Second Quarter Highlights:

- \$295 million, or 37%, year-over-year increase in fully-taxable equivalent revenue, comprised of a \$241 million, or 47%, increase in fully-taxable equivalent net interest income and a \$54 million, or 20%, increase in noninterest income

EPS reflected on a fully diluted basis.

Fully-taxable equivalent (FTE) net interest income for the 2017 second quarter increased \$241 million, or 47%, from the 2016 second quarter. This reflected the benefit from the \$23.9 billion, or 35%, increase in average earning assets coupled with a 25 basis point improvement in the FTE net interest margin (NIM) to 3.31%. Average earning asset growth included a \$15.4 billion, or 30%, increase in average loans and leases and an \$8.5 billion, or 56%, increase in average securities. The NIM expansion reflected a 34 basis point increase in earning asset yields and a 2 basis point increase in the benefit from noninterest-bearing funds, partially offset by an 11 basis point increase in funding costs. FTE net interest income during the 2017 second quarter included \$34 million, or approximately 15 basis points, of purchase accounting impact.

Compared to the 2017 first quarter, FTE net interest income increased \$15 million, or 2%. Average earning assets increased \$0.6 billion, or less than 1%, sequentially, while the NIM increased 1 basis point. The increase in the NIM reflected a 5 basis point increase in earning asset yields and a 3 basis point increase in the benefit from noninterest-bearing funds, partially offset by a 7 basis point increase in the cost of interest-bearing liabilities. The purchase accounting impact on the net interest margin was approximately 15 basis points in the 2017 second quarter compared to approximately 16 basis points in the prior quarter.

Note: 2016 third quarter results reflect inclusion of FirstMerit since August 16, 2016.

Average earning assets for the 2017 second quarter increased \$23.9 billion, or 35%, from the year-ago quarter, primarily reflecting the impact of the FirstMerit acquisition. Average securities increased \$8.5 billion, or 56%, which included \$2.9 billion of direct purchase municipal instruments in our commercial banking segment compared to \$2.3 billion in the year-ago quarter. Average residential mortgage loans increased \$1.8 billion, or 29%, as we continue to see increased demand for residential mortgage loans across our footprint.

Compared to the 2017 first quarter, average earning assets increased \$0.6 billion, or less than 1%. Average loans and leases increased \$0.4 billion, or less than 1%, primarily reflecting growth in residential mortgage, automobile, and RV and marine loans partially offset by a decline in average commercial real estate loans. Total commercial lending was negatively impacted by anticipated FirstMerit-related runoff.

Note: 2016 third quarter results reflect inclusion of FirstMerit since August 16, 2016.

Average total deposits for the 2017 second quarter increased \$21.1 billion, or 38%, from the year-ago quarter, while average total core deposits increased \$20.4 billion, or 39%. Average total interest-bearing liabilities increased \$18.5 billion, or 39%, from the year-ago quarter. These increases primarily reflect the impact of the FirstMerit acquisition. Average demand deposits increased \$14.1 billion, or 56%, comprised of a \$9.9 billion, or 62%, increase in average commercial demand deposits and a \$4.2 billion, or 46%, increase in average consumer demand deposits. Average long-term debt increased \$0.8 billion, or 11%, reflecting the issuance of \$2.0 billion and maturity of \$1.6 billion of senior debt over the past five quarters.

Compared to the 2017 first quarter, average total core deposits increased \$0.8 billion, or 1%, primarily reflecting a \$0.6 billion, or 3%, increase in money market deposits and a \$0.5 billion, or 1%, increase in average demand deposits. Average total debt decreased \$0.9 billion, or 7%, driven by a \$1.1 billion, or 29%, decrease in short-term borrowings, reflecting the maintenance of excess liquidity surrounding the branch conversion during the 2017 first quarter.

Note: 2016 third quarter results reflect inclusion of FirstMerit since August 16, 2016.

Reported noninterest income for the 2017 second quarter increased \$54 million, or 20%, from the year-ago quarter, primarily reflecting the impact of the FirstMerit acquisition. Card and payment processing income increased \$13 million, or 34%, due to higher credit and debit card related income and underlying customer growth. Service charges on deposit accounts increased \$12 million, or 16%, reflecting the benefit of the FirstMerit acquisition and continued new customer acquisition. Of the increase, \$6 million was attributable to consumer deposit accounts, and \$6 million was attributable to commercial deposit accounts.

Compared to the 2017 first quarter, reported noninterest income increased \$13 million, or 4%. Card and payment processing income increased \$5 million, or 11%, reflecting seasonally higher credit and debit card related income and underlying customer growth.

Note: 2016 third quarter results reflect inclusion of FirstMerit since August 16, 2016.

Reported noninterest expense for the 2017 second quarter increased \$171 million, or 33%, from the year-ago quarter, primarily reflecting the impact of the FirstMerit acquisition, including Significant Items. Personnel costs increased \$93 million, or 31%, primarily reflecting a \$13 million net increase in acquisition-related personnel expense and a 30% increase in average full-time equivalent employees. Deposit and other insurance expense increased \$8 million, or 68%, reflecting the larger assessment base and the FDIC Large Institution Surcharge implemented during the 2016 third quarter.

Reported noninterest expense decreased \$13 million, or 2%, from the 2017 first quarter, including a \$23 million net decrease in Significant Items. Net occupancy costs decreased \$15 million, or 22%, reflecting a \$9 million net decrease in acquisition-related expenses and the branch consolidations completed during the 2017 first quarter. Partially offsetting those decreases, personnel costs increased \$10 million, or 3%, reflecting the implementation of annual merit increases and grant of annual long-term equity incentive compensation, both in May, partially offset by a \$2 million net decrease in acquisition-related expenses.

Overall asset quality remains strong. The overall consumer credit metrics continue to perform as expected, with improvement in the Indirect Auto portfolio compared to the prior quarter mostly due to seasonality. The commercial portfolios have performed consistently, with some quarter to quarter volatility as a result of the absolute low level of problem loans.

Nonaccrual loans and leases (NALs) decreased \$96 million, or 21%, from the year-ago quarter to \$364 million, or 0.54% of total loans and leases. The year-over-year decrease was centered in the Commercial portfolio, primarily associated with the improved performance of a small number of energy sector loan relationships that were added to NALs in the 2016 first quarter. While the energy portfolio was a primary driver of the decrease in NALs over the past year, that portfolio continues to represent less than 1% of total loans outstanding. Nonperforming assets (NPAs) decreased \$75 million, or 15%, from the year-ago quarter to \$415 million, or 0.61% of total loans and leases and OREO. NALs decreased \$37 million, or 9%, from the prior quarter, while NPAs decreased \$43 million, or 9%, from the prior quarter. The linked-quarter decreases primarily resulted from pay-downs and NALs that returned to accruing status.

The provision for credit losses of \$25 million in the 2017 second quarter was consistent with the \$25 million provision in the year ago quarter. Net charge-offs (NCOs) increased \$19 million to \$36 million primarily as a result of Consumer charge-offs on the acquired FirstMerit portfolio. NCOs represented an annualized 0.21% of average loans and leases in the current quarter, down from 0.24% in the prior quarter but up from 0.13% in the year-ago quarter. We continue to be pleased with the net charge-off performance within each portfolio and in total.

The period-end allowance for credit losses (ACL) as a percentage of total loans and leases decreased to 1.11% from 1.33% a year ago, while the ACL as a percentage of period-end total NALs increased to 207% from 151% over the same period. We believe the level of the ACL is appropriate given the consistent improvement in the

credit quality metrics and the current composition of the overall loan and lease portfolio. The year-over-year decline in the coverage ratios is primarily a function of the purchase accounting impact associated with the FirstMerit acquisition.

Figures are estimated and are presented on a Basel III standardized approach basis.

See Pages 16-17 of Quarterly Financial Supplement for additional detail.

The tangible common equity to tangible assets ratio was 7.41% at June 30, 2017, down 55 basis points from a year ago. Common Equity Tier 1 (CET1) risk-based capital ratio was 9.88% at June 30, 2017, up from 9.80% a year ago. The regulatory Tier 1 risk-based capital ratio was 11.24% compared to 11.37% at June 30, 2016. Capital ratios were impacted by the \$1.3 billion of goodwill created and the issuance of \$2.8 billion of common stock as part of the FirstMerit acquisition. The regulatory Tier 1 risk-based and total risk-based capital ratios benefited from the issuance of \$100 million of Class C preferred equity during the 2016 third quarter in exchange for FirstMerit preferred equity in conjunction with the acquisition. The total risk-based capital ratio was impacted by the repurchase of \$20 million of trust preferred securities during the 2016 third quarter and \$40 million of trust preferred securities during the 2016 fourth quarter, both of which were executed under the *de minimis* clause of the Federal Reserve's CCAR rules. In addition, \$5 million of trust preferred securities were acquired in the FirstMerit acquisition and subsequently were redeemed. There were no common shares repurchased over the past five quarters.

#### **Income Taxes**

The provision for income taxes in the 2017 second quarter was \$79 million, compared to \$54 million in the 2016 second quarter. The effective tax rates for the 2017 second quarter and 2016 second quarter were 22.4% and 23.7%, respectively. At June 30, 2017, we had a net federal deferred tax asset of \$41 million and a net state deferred tax asset of \$37 million.

#### Expectations - 2017

"Economic activity remained relatively steady across our markets over the first half of the year, and we expect economic activity will modestly improve during the second half as ongoing consumer and business confidence fuel private sector investment," Steinour said. "The interest rate environment also remains favorable given the recent short-term interest rate hikes by the Federal Reserve, although the flattening seen on the intermediate term portion of the yield curve has dampened some of the benefits from the rate increases."

"Irrespective of the macroeconomic backdrop, our focus for the second half of the year is continuing to drive improved returns as we execute on core fundamentals across the Company. In addition, we will realize the remaining cost savings from the FirstMerit acquisition, and continue to capitalize on acquisition-related revenue enhancement opportunities."

We expect full-year revenue growth to be in excess of 20%. While continuing to proactively invest in the franchise, we will manage the expense base consistent with our economic outlook. We remain committed to our annual goal to deliver positive operating leverage. We also remain on track to implement all FirstMerit-related cost savings by the end of the 2017 third quarter.

We expect average balance sheet growth, driven largely by the FirstMerit acquisition, to be in excess of 20%. On a period-end basis, we expect loan growth of 4% to 6%.

Overall, asset quality metrics are expected to remain near current levels, although moderate quarterly volatility also is expected, given the current low level of problem assets and credit costs. We anticipate NCOs will remain below our long-term normalized range of 35 to 55 basis points, while provision expense will continue to normalize.

The effective tax rate for 2017 is expected to be in the range of 24% to 27%, excluding Significant Items.

#### Conference Call / Webcast Information

Huntington's senior management will host an earnings conference call on July 21, 2017, at 9:00 a.m. (Eastern Daylight Time). The call may be accessed via a live Internet webcast at the Investor Relations section of Huntington's website, www.huntington.com, or through a dial-in telephone number at (877) 407-8029; Conference ID #13664890. Statements that do not describe historical or current facts, including statements about beliefs and expectations, are forward-looking statements. Forward-looking statements may be identified by words such as expect, anticipate, believe, intend, estimate, plan, target, goal, or similar expressions, or future or conditional verbs such as will, may, might, should, would, could, or similar variations. The forward-looking statements are intended to be subject to the safe harbor provided by Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and the Private Securities Litigation Reform Act of 1995.

While there is no assurance that any list of risks and uncertainties or risk factors is complete, below are certain factors which could cause actual results to differ materially from those contained or implied in the forward-looking statements: changes in general economic, political, or industry conditions; uncertainty in U.S. fiscal and monetary policy, including the interest rate policies of the Federal Reserve Board; volatility and disruptions in global capital and credit markets; movements in interest rates; competitive pressures on product pricing and services; success, impact, and timing of our business strategies, including market acceptance of any new products or services implementing our "Fair Play" banking philosophy; the nature, extent, timing, and results of governmental actions, examinations, reviews, reforms, regulations, and interpretations, including those related to the Dodd-Frank Wall Street Reform and Consumer Protection Act and the Basel III regulatory capital reforms, as well as those involving the OCC, Federal Reserve, FDIC, and CFPB; the possibility that the anticipated benefits of the merger with FirstMerit Corporation are not realized when expected or at all, including as a result of the impact of, or problems arising from, the integration of the two companies or as a result of the strength of the economy and competitive factors in the areas where we do business; diversion of management's attention from ongoing business operations and opportunities; potential adverse reactions or changes to business or employee relationships, including those resulting from the completion of the merger with FirstMerit Corporation; and other factors that may affect our future results. Additional factors that could cause results to differ materially from those described above can be found in our Annual Report on Form 10-K for the year ended December 31, 2016, and Quarterly Report on Form 10-Q for the quarter ended March 31, 2017, which are on file with the Securities and Exchange Commission (the "SEC") and

All forward-looking statements speak only as of the date they are made and are based on information available at that time. We do not assume any obligation to update forward-looking statements to reflect circumstances or events that occur after the date the forward-looking statements were made or to reflect the occurrence of unanticipated events except as required by federal securities laws. As forward-looking statements involve significant risks and uncertainties, caution should be exercised against placing undue reliance on such statements.

#### **Basis of Presentation**

#### Use of Non-GAAP Financial Measures

This document contains GAAP financial measures and non-GAAP financial measures where management believes it to be helpful in understanding Huntington's results of operations or financial position. Where non-GAAP financial measures are used, the comparable GAAP financial measure, as well as the reconciliation to the comparable GAAP financial measure, can be found in this document, conference call slides, or the Form 8-K related to this document, all of which can be found on Huntington's website at <a href="https://www.huntington-ir.com">www.huntington-ir.com</a>.

#### **Annualized Data**

Certain returns, yields, performance ratios, or quarterly growth rates are presented on an "annualized" basis. This is done for analytical and decision-making purposes to better discern underlying performance trends when compared to full-year or year-over-year amounts. For example, loan and deposit growth rates, as well as net charge-off percentages, are most often expressed in terms of an annual rate like 8%. As such, a 2% growth rate for a quarter would represent an annualized 8% growth rate.

#### Fully-Taxable Equivalent Interest Income and Net Interest Margin

Income from tax-exempt earning assets is increased by an amount equivalent to the taxes that would have been paid if this income had been taxable at statutory rates. This adjustment puts all earning assets, most notably tax-exempt municipal securities and certain lease assets, on a common basis that facilitates comparison of results to results of competitors.

#### Earnings per Share Equivalent Data

Significant income or expense items may be expressed on a per common share basis. This is done for analytical and decision-making purposes to better discern underlying trends in total corporate earnings per share performance excluding the impact of such items. Investors may also find this information helpful in their evaluation of the company's financial performance against published earnings per share mean estimate amounts, which typically exclude the impact of Significant Items. Earnings per share equivalents are usually calculated by applying an effective tax rate to a pre-tax amount to derive an after-tax amount, which is divided by the average shares outstanding during the respective reporting period. Occasionally, when the item involves special tax treatment, the after-tax amount is disclosed separately, with this then being the amount used to calculate the earnings per share equivalent.

#### Rounding

Please note that columns of data in this document may not add due to rounding.

#### Significant Items

From time to time, revenue, expenses, or taxes are impacted by items judged by Management to be outside of ordinary banking activities and/or by items that, while they may be associated with ordinary banking activities, are so unusually large that their outsized impact is believed by Management at that time to be infrequent or short term in nature. We refer to such items as "Significant Items". Most often, these Significant Items result from factors originating outside the company – e.g., regulatory actions/assessments, windfall gains, changes in accounting principles, one-time tax assessments/refunds, litigation actions, etc. In other cases they may result from Management decisions associated with significant corporate actions out of the ordinary course of business – e.g., merger/restructuring charges, recapitalization actions, goodwill impairment, etc.

Even though certain revenue and expense items are naturally subject to more volatility than others due to changes in market and economic environment conditions, as a general rule volatility alone does not define a Significant Item. For example, changes in the provision for credit losses, gains/losses from investment activities, asset valuation write-downs, etc., reflect ordinary banking activities and are, therefore, typically excluded from consideration as a Significant Item.

Management believes the disclosure of "Significant Items", when appropriate, aids analysts/investors in better understanding corporate performance and trends so that they can ascertain which of such items, if any, they may wish to include/exclude from their analysis of the company's performance - i.e., within the context of determining how that performance differed from their expectations, as well as how, if at all, to adjust their estimates of future performance accordingly. To this end, Management has adopted a practice of listing "Significant Items" in its

external disclosure documents (e.g., earnings press releases, quarterly performance discussions, investor presentations, Forms 10-Q and 10-K).

"Significant Items" for any particular period are not intended to be a complete list of items that may materially impact current or future period performance. A number of items could materially impact these periods, including those described in Huntington's 2016 Annual Report on Form 10-K and other factors described from time to time in Huntington's other filings with the Securities and Exchange Commission.

#### Notes:

The preparation of financial statement data in conformity with accounting principles generally accepted in the United States (GAAP) requires management to make estimates and assumptions that affect amounts reported. Actual results could differ from those estimates. Certain prior period amounts have been reclassified to conform to the current period's presentation.

#### Fully-Taxable Equivalent Basis

Interest income, yields, and ratios on a FTE basis are considered non-GAAP financial measures. Management believes net interest income on a FTE basis provides a more accurate picture of the interest margin for comparison purposes. The FTE basis also allows management to assess the comparability of revenue arising from both taxable and tax-exempt sources. The FTE basis assumes a federal statutory tax rate of 35 percent.

#### Non-Regulatory Capital Ratios

In addition to capital ratios defined by banking regulators, the Company considers various other measures when evaluating capital utilization and adequacy, including:

- Tangible common equity to tangible assets, and
- Tangible common equity to risk-weighted assets using Basel III definition.

These non-regulatory capital ratios are viewed by management as useful additional methods of reflecting the level of capital available to withstand unexpected market conditions.

Additionally, presentation of these ratios allows readers to compare the Company's capitalization to other financial services companies. These ratios differ from capital ratios defined by banking regulators principally in that the numerator excludes preferred securities, the nature and extent of which varies among different financial services companies. These ratios are not defined in GAAP or federal banking regulations. As a result, these non-regulatory capital ratios disclosed by the Company may be considered non-GAAP financial measures.

Because there are no standardized definitions for these non-regulatory capital ratios, the Company's calculation methods may differ from those used by other financial services companies. Also, there may be limits in the usefulness of these measures to investors. As a result, the Company encourages readers to consider the consolidated financial statements and other financial information contained in the related press release in their entirety, and not to rely on any single financial measure.

#### **Key Statistics Footnotes**

- Comparisons for all presented periods are impacted by a number of factors. Refer to Significant Items
- (2) Net income applicable to common shares excluding expense for amortization of intangibles for the period divided by average tangible common shareholders' equity. Average tangible common shareholders' equity equals average total common shareholders' equity less average intangible assets and goodwill. Expense for amortization of intangibles and average intangible assets are net of deferred tax liability, and calculated assuming a 35% tax rate.
- (3) On a fully-taxable equivalent (FTE) basis assuming a 35% tax rate.
- (4) Noninterest expense less amortization of intangibles divided by the sum of FTE net interest income and noninterest income excluding securities gains (losses).
- (5) Includes noninterest-bearing and interest-bearing demand deposits, money market deposits, savings and other domestic deposits, and core certificates of deposit.
- (6) NPAs include other real estate owned.
- (7) June 30, 2017, figures are estimated.
- (8) Tangible common equity (total common equity less goodwill and other intangible assets) divided by tangible assets (total assets less goodwill and other intangible assets). Other intangible assets are net of deferred tax liability, and calculated assuming a 35% tax rate.
