Fully-taxable equivalent (FTE) net interest income for the 2023 second quarter increased $\$ 90$ million, or $7 \%$, from the 2022 second quarter. The results primarily reflect a $\$ 13.7$ billion, or $8 \%$, increase in average earning assets, partially offset by a 4 basis point decrease in the net interest margin (NIM) to $3.11 \%$ and increase in average interest-bearing liabilities. The growth in average earning assets was primarily driven by higher cash balances and an increase in average loans and leases. The NIM compression was primarily driven by higher cost of funds and a 14 basis point impact from higher cash balances, partially offset by the higher rate environment driving an increase in loan and lease and investment security yields. Net interest income in the 2023 second quarter included $\$ 8$ million of net interest income from purchase accounting accretion, compared to $\$ 16$ million in the 2022 second quarter.

Compared to the 2023 first quarter, FTE net interest income decreased $\$ 61$ million, or $4 \%$, reflecting a 29 basis point decrease in NIM and higher average interest-bearing liabilities, partially offset by higher average earnings assets. The NIM decrease was driven by higher cost of funds and an 8 basis point impact from higher cash balances, partially offset by higher loan and lease and investment security yields. Net interest income in the 2023 first quarter included $\$ 10$ million of net interest income from purchase accounting accretion.

(1) During the 2023 second quarter, Huntington revised its process for assessing and monitoring the risk and performance of non-real estate secured commercial loans, primarily loans to REITs. These loans were reclassified from commercial real estate to the commercial and industrial loan category to align reporting with this process revision. All prior period results have been adjusted to conform to the current presentation.

Average earning assets for the 2023 second quarter increased $\$ 13.7$ billion, or $8 \%$, from the year-ago quarter, primarily reflecting a $\$ 7.5$ billion, or $213 \%$, increase in deposits at Federal Reserve Bank and a $\$ 7.4$ billion, or $6 \%$, increase in average total loans and leases, partially offset by a $\$ 826$ million, or $2 \%$, decrease in average securities. Average loan and lease balance increases were led by growth in average commercial loans and leases of $\$ 5.8$ billion, or $9 \%$, primarily driven by a $\$ 5.4$ billion, or $12 \%$ increase in average commercial and industrial loans. Also, average consumer loans increased $\$ 1.6$ billion, or $3 \%$.

Compared to the 2023 first quarter, average earning assets increased $\$ 5.8$ billion primarily reflecting a $\$ 5.0$ billion, or $81 \%$, increase in deposits at Federal Reserve Bank and a $\$ 925$ million, or $1 \%$, increase in average total loans and leases. Average loan and lease balance increases were primarily due to higher average commercial loans and leases of $\$ 772$ million, or $1 \%$, reflecting modest growth aligned with our optimization of loan growth focused on highest returns.

Reported total noninterest income for the 2023 second quarter increased $\$ 10$ million, or $2 \%$, from the year-ago quarter primarily reflecting higher other noninterest income driven by an $\$ 18$ million increase from favorable mark-to-market on pay-fixed swaptions. Additional increases include, higher card and payments processing of $\$ 6$ million, or $6 \%$, an increase in bank owned life insurance of $\$ 5$ million, or $45 \%$, and an increase in trust and investment management services of $\$ 5$ million, or $8 \%$. Partially offsetting these increases was a decrease in service charges on deposit accounts of $\$ 18$ million, or $17 \%$, primarily reflecting the impact from deposit pricing and program changes. Also, mortgage banking income decreased $\$ 11$ million, or $25 \%$, primarily reflecting lower net MSR risk management.

Total noninterest income decreased $\$ 17$ million, or $3 \%$, to $\$ 495$ million for the 2023 second quarter, compared to $\$ 512$ million for the 2023 first quarter. The decrease was primarily driven by the $\$ 57$ million gain associated with the sale of the RPS business recognized in the 2023 first quarter. Partially offsetting this decrease was a $\$ 19$ million increase from favorable mark-to-market on pay-fixed swaptions. Card and payment processing increased $\$ 9$ million, or $10 \%$, primarily driven by higher debit card usage. Mortgage banking income increased $\$ 7$ million, or $27 \%$, due to increases in origination volume, partially offset by lower saleable spreads. Trust and investment management services increased $\$ 6$ million, or $10 \%$.

Reported total noninterest expense for the 2023 second quarter increased $\$ 32$ million, or $3 \%$, from the year-ago quarter. Excluding the impact from Notable Items, noninterest expense increased $\$ 56$ million, or $6 \%$, primarily driven by higher personnel costs of $\$ 38$ million, or $7 \%$, due to the full quarter impact of the Capstone acquisition and merit, higher marketing of $\$ 8$ million, or $33 \%$, reflecting actions taken to deepen and acquire new customer relationships, and higher outside data processing and other services of $\$ 7$ million, or $5 \%$, driven by higher technology investments.

Reported total noninterest expense decreased $\$ 36$ million, or $3 \%$, from the 2023 first quarter. Excluding the impact from Notable Items, noninterest expense increased $\$ 6$ million, or $1 \%$, primarily driven by an increase in marketing of $\$ 7$ million, or $28 \%$, reflecting actions taken to deepen and acquire new customer relationships, in addition to higher personnel costs of $\$ 6$ million, or $1 \%$, due to full quarter impact of merit increase, partially offset by lower payroll taxes. Partially offsetting these increases was a decrease of $\$ 6$ million, or $10 \%$, in net occupancy driven by seasonally lower maintenance and utilities.

(2) Total NALs as a \% of total loans and leases.
(3) Total NPAs as a \% of sum of loans and leases, other real estate owned, and other NPAs.

See Pages 12-15 of Quarterly Financial Supplement for additional detail.

Nonperforming assets (NPAs) were $\$ 557$ million, or $0.46 \%$, of total loans and leases, OREO and other NPAs, compared to $\$ 682$ million, or $0.59 \%$, a year-ago. Nonaccrual loans and leases (NALs) were $\$ 510$ million, or $0.42 \%$ of total loans and leases, compared to $\$ 657$ million, or $0.57 \%$ of total loans and leases, a year-ago. On a linked quarter basis, NPAs decreased $\$ 21$ million, or 4\%, and NALs decreased $\$ 23$ million, or $4 \%$.

The provision for credit losses increased $\$ 25$ million year-over-year and increased $\$ 7$ million quarter-over-quarter to $\$ 92$ million in the 2023 second quarter. Net charge-offs (NCOs) increased $\$ 41$ million year-over-year and decreased $\$ 8$ million quarter-over-quarter to $\$ 49$ million. NCOs represented an annualized $0.16 \%$ of average loans and leases in the current quarter, up from $0.03 \%$ in the year-ago quarter and down from $0.19 \%$ in the prior quarter. The increase in NCOs year-over-year reflects the continued normalization of net charge-offs. Commercial and consumer net charge-offs remained low at $0.16 \%$ and $0.17 \%$, respectively, for the 2023 second quarter.

The allowance for loan and lease losses (ALLL) increased $\$ 103$ million from the year-ago quarter to $\$ 2.2$ billion, or $1.80 \%$, and allowance for credit losses (ACL) increased by $\$ 174$ million from the year-ago quarter to $\$ 2.3$ billion, or $1.93 \%$ of total loans and leases, primarily driven by loan and lease growth but also reflective of near-term recessionary risks. On a linked quarter basis, the ACL increased $\$ 43$ million, resulting in the ACL coverage ratio increasing 3 basis points, to $1.93 \%$.

## Capital

Table 11 - Capital Ratios

(1) June 30, 2023 figures are estimated. Amounts are presented on a Basel III standardized approach basis for calculating risk-weighted assets. The capital ratios reflect Huntington's 2020 election of a five-year transition to delay for two years the full impact of CECL on regulatory capital, followed by a three-year transition period. As of March 31, 2023 and June 30, 2023, 50\% of the cumulative CECL deferral has been phased in. As of June 30, 2022, September 30, 2022, and December 31, 2022, 25\% of the cumulative CECL deferral has been phased in.
See Page 16 of Quarterly Financial Supplement for additional detail.
The tangible common equity to tangible assets ratio was $5.80 \%$ at June 30,2023 up 3 basis points from last quarter due primarily to current period earnings. Common Equity Tier 1 (CET1) risk-based capital ratio was $9.82 \%$, up from $9.55 \%$ from the prior quarter. The increase in regulatory capital ratios was primarily driven by current period earnings.

## Income Taxes

The provision for income taxes was $\$ 134$ million in the 2023 second quarter compared to $\$ 144$ million in the 2023 first quarter. The effective tax rate for the 2023 second quarter and 2023 first quarter were $19.3 \%$ and $19.2 \%$, respectively. The variance to the linked quarter effective tax rate relates primarily to a reduction in capital losses, offset by an increase in tax credits and the impact of stock-based compensation.

At June 30, 2023, we had a net federal deferred tax asset of $\$ 383$ millionand a net state deferred tax asset of $\$ 87$ million.

## Basis of Presentation

## Use of Non-GAAP Financial Measures

This document contains GAAP financial measures and non-GAAP financial measures where management believes it to be helpful in understanding Huntington's results of operations or financial position. Where non-GAAP financial measures are used, the comparable GAAP financial measure, as well as the reconciliation to the comparable GAAP financial measure, can be found in this document, the financial supplement, conference call slides, or the Form 8-K related to this document, all of which can be found in the Investor Relations section of Huntington's website, http://www.huntington.com.

## Annualized Data

Certain returns, yields, performance ratios, or quarterly growth rates are presented on an "annualized" basis. This is done for analytical and decision-making purposes to better discern underlying performance trends when compared to full-year or year-over-year amounts. For example, loan and deposit growth rates, as well as net charge-off percentages, are most often expressed in terms of an annual rate like $8 \%$. As such, a $2 \%$ growth rate for a quarter would represent an annualized $8 \%$ growth rate.

## Fully-Taxable Equivalent Interest Income and Net Interest Margin

Income from tax-exempt earning assets is increased by an amount equivalent to the taxes that would have been paid if this income had been taxable at statutory rates. This adjustment puts all earning assets, most notably tax-exempt municipal securities, and certain lease assets, on a common basis that facilitates comparison of results to results of competitors.

## Rounding

Please note that columns of data in this document may not add due to rounding.

## Notable Items

From time to time, revenue, expenses, or taxes are impacted by items judged by management to be outside of ordinary banking activities and/or by items that, while they may be associated with ordinary banking activities, are so unusually large that their outsized impact is believed by management at that time to be infrequent or short term in nature. We refer to such items as "Notable Items." Management believes it is useful to consider certain financial metrics with and without Notable Items, in order to enable a better understanding of company results, increase comparability of period-to-period results, and to evaluate and forecast those results.

## Notes:

The preparation of financial statement data in conformity with accounting principles generally accepted in the United States (GAAP) requires management to make estimates and assumptions that affect amounts reported. Actual results could differ from those estimates. Certain prior period amounts have been reclassified to conform to the current period's presentation.
During the 2023 second quarter, Huntington revised its process for assessing and monitoring the risk and performance of non-real estate secured commercial loans, primarily loans to REITs. These loans were reclassified from commercial real estate to the commercial and industrial loan category to align reporting with this process revision. All prior period results have been adjusted to conform to the current presentation.
To align with our strategic priorities, during the second quarter 2023, we completed an organizational realignment and now report on two business segments: Consumer \& Regional Banking and Commercial Banking. The Treasury / Other function includes technology and operations, other unallocated assets, liabilities, revenue, and expense. Huntington's business segments are based on our internally-aligned segment leadership structure, which is how management monitors results and assesses performance. The organizational realignment primarily involved consolidating our previously reported Consumer and Business Banking, Vehicle Finance, and Regional Banking and The Huntington Private Client Group, into one new business segment called Consumer \& Regional Banking. All prior period results have been adjusted to conform to the new segment presentation.

## Fully-Taxable Equivalent Basis

Interest income, yields, and ratios on a FTE basis are considered non-GAAP financial measures. Management believes net interest income on a FTE basis provides a more accurate picture of the interest margin for comparison purposes. The FTE basis also allows management to assess the comparability of revenue arising from both taxable and tax-exempt sources. The FTE basis assumes a federal statutory tax rate of $21 \%$.

## Non-Regulatory Capital Ratios

In addition to capital ratios defined by banking regulators, the Company considers various other measures when evaluating capital utilization and adequacy, including:

- Tangible common equity to tangible assets, and
- Tangible common equity to risk-weighted assets using Basel III definition.

These non-regulatory capital ratios are viewed by management as useful additional methods of reflecting the level of capital available to withstand unexpected market conditions. Additionally, presentation of these ratios allows readers to compare the Company's capitalization to other financial services companies. These ratios differ from capital ratios defined by banking regulators principally in that the numerator excludes preferred securities, the nature and extent of which varies among different financial services companies. These ratios are not defined in GAAP or federal banking regulations. As a result, these non-regulatory capital ratios disclosed by the Company may be considered non-GAAP financial measures.

Because there are no standardized definitions for these non-regulatory capital ratios, the Company's calculation methods may differ from those used by other financial services companies. Also, there may be limits in the usefulness of these measures to investors. As a result, the Company encourages readers to consider the consolidated financial statements and other financial information contained in the related press release in their entirety, and not to rely on any single financial measure.

(2) Upon adoption in 2020, Huntington elected to temporarily delay certain effects of CECL on regulatory capital, utilizing a two-year delay followed by a three-year transition period. January 1, 2022 began the three-year transition period, whereby $100 \%$ of the day-one impact of adopting CECL and $25 \%$ of the cumulative change in the reported allowance for credit losses since adopting CECL will be recognized over the three-year transition period. As of March 31, 2023 and June 30, 2023,50\% of the cumulative CECL deferral has been phased in. As of June 30, 2022, September 30, 2022, and December 31, 2022, $25 \%$ of the cumulative CECL deferral has been phased in.
