PART I. FINANCIAL INFORMATION

When we refer to “we,” “our,” “us,” “Huntington,” and “the Company” in this Quarterly Report on Form 10-Q (this “report”), we mean Huntington Bancshares Incorporated and our consolidated subsidiaries, unless the context indicates that we refer only to the parent company, Huntington Bancshares Incorporated. When we refer to the “Bank” in this report, we mean our only bank subsidiary, The Huntington National Bank, and its subsidiaries.

Item 2: Management’s Discussion and Analysis of Financial Condition and Results of Operations

INTRODUCTION

We are a multi-state diversified regional bank holding company organized under Maryland law in 1966 and headquartered in Columbus, Ohio. Through the Bank, we are committed to making people’s lives better, helping businesses thrive, and strengthening the communities we serve, and we have been servicing the financial needs of our customers since 1866. Through our subsidiaries, we provide full-service commercial and consumer deposit, lending, and other banking and financial services. These include, but are not limited to, payments, mortgage banking, direct and indirect consumer financing, investment banking, capital markets, advisory, equipment financing, distribution finance, investment management, trust, brokerage, insurance, and other financial products and services. As of September 30, 2026, we operated approximately 1,400 branches in 21 states, with our Commercial and Vehicle Finance businesses delivering expertise nationally.

This MD&A provides information we believe necessary for understanding our financial condition, changes in financial condition, results of operations, and cash flows. This MD&A provides only material updates to the MD&A included in our Annual Report on Form 10-K for the year ended December 31, 2025 (the “2025 Annual Report on Form 10-K”), and therefore, should be read in conjunction with the 2025 Annual Report on Form 10-K. This MD&A should also be read in conjunction with the [Unaudited Consolidated Financial Statements](#), [Notes to Unaudited Consolidated Financial Statements](#), and other information contained in this report.

In this MD&A we refer to FTE net interest income and FTE total revenue and the efficiency and tangible common equity ratios. These financial measures are not required by or calculated in accordance with GAAP, and may not be calculated the same as similarly titled measures used by other companies. These financial measures should thus be considered as supplemental in nature and not considered in isolation or as a substitute for the related financial information prepared in accordance with GAAP. For a further description of these non-GAAP financial measures and reconciliations to the most directly comparable GAAP measure, see the “[Non-GAAP Financial Measures](#)” within the “[Additional Disclosures](#)” section below.

EXECUTIVE OVERVIEW

Veritex and Cadence Acquisitions

Effective October 20, 2025, Huntington completed the acquisition of Veritex Holdings, Inc. (“Veritex”), a bank holding company headquartered in Dallas, Texas, whereby Veritex merged with and into Huntington, with Huntington as the surviving entity. Upon completion of the merger, Huntington issued 107 million shares of its common stock to Veritex shareholders of record as of the merger date, in addition to 1 million shares issued upon the conversion of certain Veritex equity awards, resulting in total consideration from the transaction of approximately \$1.7 billion.

Effective February 1, 2026, Huntington completed the acquisition of Cadence Bank (“Cadence”), a regional bank headquartered in Houston, Texas and Tupelo, Mississippi, whereby Cadence merged with and into Huntington National Bank, with Huntington National Bank as the surviving bank. Upon completion of the merger, Huntington issued 462 million shares of its common stock to Cadence shareholders of record as of the merger date, in addition to the conversion of certain Cadence equity awards into Huntington equity awards. Further, each outstanding share of 5.50% Series A Non-Cumulative Perpetual Preferred Stock of Cadence was converted into the right to receive one depository share representing 1/1000 of a share of a newly created 5.50% Series L Non-Cumulative Perpetual Preferred Stock of Huntington. Consideration from the transaction totaled approximately \$8.3 billion.

Historical periods reflect results of legacy Huntington operations. Subsequent to the closing of each respective acquisition, results reflect combined post-acquisition activity. For further information on the Veritex and Cadence acquisitions, refer to Note 3 - “[Business Combinations](#)” of the Notes to Unaudited Consolidated Financial Statements.

(1) Net income applicable to common shares excluding expense for amortization of intangibles for the period divided by average tangible common shareholders' equity, which represents a non-GAAP measure. Average tangible common shareholders' equity equals average total common shareholders' equity less average intangible assets and goodwill. Expense for amortization of intangibles and average intangible assets are net of deferred taxes and calculated assuming a 21% tax rate.

(2) Calculated on an FTE basis, which represents a non-GAAP measure, assuming a 21% tax rate.

(3) Noninterest expense less amortization of intangibles divided by the sum of FTE net interest income and noninterest income excluding securities gains (losses), which represents a non-GAAP measure.

[Table of Contents](#)

Summary of 2026 Third Quarter Results Compared to 2025 Third Quarter

For the third quarter of 2026, we reported net income attributable to Huntington of \$721 million, or \$0.33 per diluted common share, compared with \$629 million, or \$0.41 per diluted common share, in the year-ago quarter. The third quarter of 2026 reported net income was impacted by \$117 million, or \$92 million after tax, of acquisition-related expenses, which reduced diluted earnings by \$0.05 per common share, while the third quarter of 2025 was favorably impacted by \$24 million from the gain on sale of a portion of our corporate trust and custody business and \$6 million FDIC DIF special assessment adjustments, partially offset by \$14 million of acquisition-related expenses, which, together, increased diluted earnings on an after tax basis by \$0.01 per common share.

Net interest income was \$2.1 billion for the third quarter of 2026, an increase of \$563 million, or 37%, from the year-ago quarter. FTE net interest income, a non-GAAP financial measure, increased \$567 million, or 37%, from the year-ago quarter. The increase in FTE net interest income primarily reflected a \$62.5 billion, or 32%, increase in average earning assets and a 12 basis point increase in the FTE NIM to 3.25%, partially offset by a \$48.5 billion, or 31%, increase in average interest-bearing liabilities. The increases in average earning assets and average interest-bearing liabilities were attributable to a combination of the Cadence and Veritex acquisitions, as well as organic growth. The NIM increase was primarily due to a decrease in deposit rates, partially offset by a decrease in yields on interest earning assets.

The provision for credit losses was \$123 million in the third quarter of 2026, an increase of \$1 million, or 1%, from the year-ago quarter, with the impact of loan growth and higher NCOs in the current year quarter partially offset by a lower overall reserve coverage. NCOs were \$146 million and represented 0.31% of average loans and leases in the third quarter of 2026, compared to \$75 million, or 0.22% of average loans and leases, in the year-ago quarter.

Noninterest income was \$722 million in the third quarter of 2026, an increase of \$94 million, or 15%, from the year-ago quarter. The increase in noninterest income was driven by increases across all major fee revenue categories, in part due to the impact from the Cadence and Veritex acquisitions. Noninterest expense, inclusive of the impact from the Cadence and Veritex acquisitions, was \$1.8 billion in the third quarter of 2026, an increase of \$526 million, or 42%, from the year-ago quarter. The increase in noninterest expense was primarily driven by acquisition-related expenses and higher base expenses from the Cadence and Veritex acquisitions.

Balance Sheet, Credit Quality, and Capital Ratios as of September 30, 2026 Compared to Prior Year End

Total assets at September 30, 2026 were \$287.8 billion, an increase of \$62.7 billion, or 28%, compared to December 31, 2025. The increase in total assets was primarily driven by \$51.3 billion of assets acquired as a result of the completion of the Cadence acquisition, goodwill resulting from the Cadence acquisition, and organic loan growth. Total liabilities at September 30, 2026 were \$255.6 billion, an increase of \$54.9 billion, or 27%, compared to December 31, 2025. The increase in total liabilities was primarily driven by \$46.5 billion of liabilities assumed as a result of the completion of the Cadence acquisition.

NPAs totaled \$1.7 billion at September 30, 2026, an increase of \$777 million, or 82%, from December 31, 2025, with the increase due to \$295 million of NPAs assumed in the Cadence acquisition and additional increases in commercial and industrial, commercial real estate, and residential mortgage NALs. The ACL was \$3.4 billion, or 1.75% of total loans and leases, at September 30, 2026, an increase of \$615 million compared to \$2.7 billion, or 1.83% of total loans and leases, at December 31, 2025. The increase in the ACL was driven by the ACL recorded for loans acquired in the Cadence transaction, in addition to loan and lease growth, partially offset by a decrease in the overall ACL coverage ratio.

Our shareholders' equity to total assets ratio was 11.2% at September 30, 2026, compared to 10.8% at December 31, 2025. The tangible common equity to tangible assets ratio, a non-GAAP measure, was 6.9% at September 30, 2026, compared to 7.1% at December 31, 2025, with a decline in AOCI and an increase in tangible assets partially offset by an increase in tangible common equity from current period earnings, net of dividends and share repurchases. The CET1 risk-based capital ratio was 10.1% at September 30, 2026, compared to 10.4% at December 31, 2025, with the decrease driven by higher risk-weighted assets, the impact of the Cadence acquisition, and share repurchases, partially offset by an increase in regulatory capital from current period earnings, net of dividends.

Table of Contents

General

Our general business objectives and strategic priorities are to:

- Deliver our Purpose, Culture, and Vision through a differentiated operating model;
- Deepen customer relationships through advice-driven local delivery of national capabilities and broader product offerings;
- Generate sustainable long-term profitable growth across our regional and national businesses;
- Invest in technology, data, automation, and digital capabilities to enhance the customer experience, improve efficiency, and support scalable growth;
- Maintain positive operating leverage through disciplined execution, expense management, and strategic investment;
- Leverage our scaled regional banking franchise, expanded geographic footprint, and national specialty businesses to drive diversified growth;
- Deploy capital prudently to support organic growth and deliver long-term shareholder returns; and
- Maintain financial strength and resilience through disciplined risk, liquidity and capital management, while adhering to an aggregate moderate-to-low risk appetite.

Our quarterly results reflect disciplined execution in an evolving operating environment, driven by growth across our core business and the successful integrations of Cadence and Veritex. We remain strategically well positioned, with a scaled and diversified franchise, multiple growth engines, and the achievement of partner synergies. Our strong liquidity, capital, and credit profiles continue to provide the flexibility to invest in deepening customer relationships, expanding our capabilities and expertise, and supporting sustainable organic growth. Credit performance remains solid and consistent with our aggregate moderate-to-low risk appetite. With our differentiated super-regional bank model, which combines national expertise with local delivery, we remain focused on generating robust earnings, tangible book value growth, and long-term shareholder value through disciplined growth, prudent risk management, and continued investment in our franchise.

Economy

The U.S. economy remained resilient in the third quarter, supported by solid consumer spending, business investment, and continued spending on artificial intelligence and related infrastructure. The labor market remained stable, with continued payroll growth and unemployment near historically low levels. Geopolitical tensions in the Middle East and elevated energy prices weighed on confidence, but strong household and corporate balance sheets helped sustain growth.

Interest rates moved sharply higher during the quarter as persistent inflation and durable economic strength led investors to price in a higher path for policy rates. In September, the Federal Reserve raised the federal funds target range by 25 basis points to 3.75%–4.00%, its first rate increase since July 2023. Markets continue to price in the possibility of further tightening before year-end.

Looking ahead, growth is expected to continue, supported by consumer spending, a stable labor market, and

(1) Calculated on an FTE basis, which represents a non-GAAP measure, assuming a 21% tax rate.

(2) Yield/rates include the impact of applicable derivatives. Loan and lease and deposit average yield/rates also include the impact of applicable non-deferrable and amortized fees.

(3) For purposes of this analysis, NALs are reflected in the average balances of loans and leases.

[Table of Contents](#)

Quarterly Net Interest Income

Net interest income for the third quarter of 2026 increased \$563 million, or 37%, from the third quarter of 2025. FTE net interest income, a non-GAAP financial measure, for the third quarter of 2026 increased \$567 million, or 37%, from the third quarter of 2025. The increase in FTE net interest income primarily reflected a \$62.5 billion, or 32%, increase in average earning assets and a 12 basis point increase in the FTE NIM to 3.25%, partially offset by a \$48.5 billion, or 31%, increase in average interest-bearing liabilities. The increases in average earning assets and average interest-bearing liabilities were attributable to a combination of the Cadence and Veritex acquisitions and organic growth. The increase in the NIM was driven by a decrease in deposit rates, partially offset by lower yields on interest earning assets.

Quarterly Average Balance Sheet

Average assets for the third quarter of 2026 increased \$72.5 billion, or 35%, from the third quarter of 2025. Average earning assets for the third quarter of 2026 increased \$62.5 billion, or 32%, from the third quarter of 2025. The increases in average assets and average earning assets were primarily due to \$51.3 billion of total assets, including \$36.9 billion of loans, acquired in connection with the Cadence transaction, and \$12.0 billion of total assets, including \$9.3 billion of loans, acquired in connection with the Veritex transaction, in addition to organic loan growth over the last year.

Average liabilities for the third quarter of 2026 increased \$61.2 billion, or 33%, from the third quarter of 2025. Average deposits for the third quarter of 2026 increased \$59.0 billion, or 36%, from the third quarter of 2025. The increases in average liabilities were primarily due to \$43.5 billion of deposits, including \$8.8 billion of noninterest-bearing deposits and \$34.7 billion of interest-bearing deposits, acquired in connection with the Cadence transaction, and \$10.5 billion of deposits, including \$2.4 billion of noninterest-bearing deposits and \$8.1 billion of interest-bearing deposits, acquired in the Veritex transaction, in addition to organic deposit growth over the last year.

Average shareholders' equity for the third quarter of 2026 increased \$11.3 billion, or 53%, from the third quarter of 2025, primarily due to the impact of common stock issued in connection with the Cadence and Veritex acquisitions, and earnings, net of dividends and share repurchases, over the last year.

(3) For purposes of this analysis, NALs are reflected in the average balances of loans and leases.

Table of Contents

Year-to-Date Net Interest Income

Net interest income for the first nine-month period of 2026 increased \$1.6 billion, or 37%, from the year-ago period. FTE net interest income, a non-GAAP financial measure, for the first nine-month period of 2026 also increased \$1.6 billion, or 37%, from the year-ago period. The increase in FTE net interest income reflected an 11 basis point increase in the FTE NIM to 3.23% and a \$60.3 billion, or 32%, increase in average total earning assets, partially offset by a \$47.2 billion, or 31%, increase in interest-bearing liabilities. The higher NIM was driven by lower funding costs, partially offset by the decrease in yields on interest earning assets.

Year-to-Date Average Balance Sheet

Average assets and average earning assets for the first nine-month period of 2026, inclusive of the impacts of the Cadence and Veritex acquisitions, increased \$68.8 billion, or 33%, and \$60.3 billion, or 32%, respectively, from the year-ago period, with the increases primarily due to increases in average loans and leases of \$50.7 billion, or 38%, and total investment and other securities of \$5.6 billion, or 13%. The increase in average loans and leases included growth in average commercial loans and leases of \$40.3 billion, or 53%, and average consumer loans of \$10.4 billion, or 18%.

Average liabilities and average deposits for the first nine-month period of 2026, inclusive of the impacts of the Cadence and Veritex acquisitions, increased \$57.7 billion, or 31%, and \$54.1 billion, or 33%, respectively, from the year-ago period. The increase in average deposits was driven by an increase in average interest-bearing deposits of \$44.5 billion, or 33%, and an increase in noninterest-bearing deposits of \$9.5 billion, or 33%.

Average shareholders' equity for the first nine-month period of 2026 increased \$11.1 billion, or 54%, from the year-ago period primarily due to the impact of common stock issued in connection with the Cadence and Veritex acquisitions, and earnings, net of dividends and share repurchases, over the last year.

Provision for Credit Losses

(This section should be read in conjunction with the "Credit Risk" section.)

The following table presents the components of the provision for credit losses.

Table 4 - Provision for Credit Losses

(dollar amounts in millions)	Three Months Ended		Nine Months Ended	
	September 30, 2026	September 30, 2025	September 30, 2026	September 30, 2025
Provision for loan and lease losses	\$ 119	\$ 118	\$ 494	\$ 357
Provision (benefit) for unfunded lending commitments	4	4	(81)	(14)
Provision (benefit) for securities	—	—	—	(3)
Total provision for credit losses	\$ 123	\$ 122	\$ 413	\$ 340

The provision for credit losses for the third quarter of 2026 increased \$1 million, or 1%, compared to the third

quarter of 2025. The provision for credit losses for the first nine-month period of 2024 increased \$73 million, or 21%, compared to the year-ago period. The increases in current period provision expense were reflective of loan growth and higher net loan charge-offs, partially offset by a lower overall reserve coverage. The provision for credit losses is also impacted by fluctuations in the provision for unfunded lending commitments.

2026 3Q Form 10-Q 11

[Table of Contents](#)

Noninterest Income

The following table reflects noninterest income for each of the periods presented.

Table 5 - Noninterest Income

	Three Months Ended			Nine Months Ended		
	September 30, 2026	September 30, 2025	Change Percent	September 30, 2026	September 30, 2025	Change Percent
<i>(dollar amounts in millions)</i>						
Payments and cash management revenue	\$ 211	\$ 174	21 %	\$ 602	\$ 494	22 %
Wealth and asset management revenue	131	104	26	385	307	25
Customer deposit and loan fees	124	102	22	362	283	28
Capital markets and advisory fees	122	94	30	394	245	61
Mortgage banking income	45	43	5	130	102	27
Net gains (losses) on sales of securities	—	—	—	15	(58)	126
Other noninterest income ⁽¹⁾	89	111	(20)	301	220	37
Total noninterest income	\$ 722	\$ 628	15 %	\$ 2,189	\$ 1,593	37 %

(1) In the third quarter of 2026, we reclassified insurance income and leasing revenue into other noninterest income. Prior period amounts have been revised to conform with the current period presentation.

Noninterest income for the third quarter of 2026 increased \$94 million, or 15%, from the year-ago quarter, inclusive of the impact of the Cadence and Veritex acquisitions. Payments and cash management revenue increased \$37 million, or 21%, driven by higher cash management and interchange revenue. Capital markets and advisory fees increased \$28 million, or 30%, primarily due to higher advisory fees from the legacy business and the impact of three strategic business units acquired from Janney in January 2026, in addition to higher syndication fees. Wealth and asset management revenue increased \$27 million, or 26%, primarily due to higher investment management and trust income. Customer deposit and loan fees increased \$22 million, or 22%, primarily due to an increase in commitment fees and the volume of personal service charges. Lastly, other noninterest income decreased \$22 million, or 20%, largely due to a \$24 million gain on the sale of a portion of our trust and custody business that occurred during the year-ago quarter.

Noninterest income for the first nine-month period of 2026 increased \$596 million, or 37%, from the year-ago period, inclusive of the impact of the Cadence and Veritex acquisitions. Capital markets and advisory fees increased \$149 million, or 61%, primarily due to higher advisory fees and the impact of three strategic business units acquired from Janney, in addition to higher syndication and underwriting fees. Payments and cash management revenue increased \$108 million, or 22%, reflecting higher cash management and interchange revenue. Customer deposit and loan fees increased \$79 million, or 28%, primarily reflecting an increase in the volume of personal service charges and an increase in commitment fees. Wealth and asset management revenue increased \$78 million, or 25%, reflecting higher investment management and trust income. Mortgage banking income increased \$28 million, or 27%, due to an increase in net origination and secondary marketing income. Other noninterest income increased \$81 million, or 37%, primarily due to the favorable net impact of credit risk transfer transactions, valuation changes on strategic and other investments, and bank owned life insurance income. In addition, the first nine-month period of 2026 included a \$15 million gain from the sale of certain investment securities compared to a \$58 million loss from the year-ago period, both as part of ongoing portfolio positioning.

[Table of Contents](#)

Noninterest Expense

The following table reflects noninterest expense for each of the periods presented.

Table 6 - Noninterest Expense

	Three Months Ended			Nine Months Ended		
	September 30, 2026	September 30, 2025	Change Percent	September 30, 2026	September 30, 2025	Change Percent
<i>(dollar amounts in millions)</i>						
Personnel costs	\$ 990	\$ 757	31 %	\$ 2,992	\$ 2,150	39 %
Outside data processing and other services	290	198	46	927	550	69

Marketing	54	34	59	129	91	42
Amortization of intangibles	49	11	345	144	33	336
Other noninterest expense ⁽¹⁾	176	92	91	511	319	60
Total noninterest expense	<u>\$ 1,772</u>	<u>\$ 1,246</u>	<u>42 %</u>	<u>\$ 5,355</u>	<u>\$ 3,595</u>	<u>49 %</u>
Number of employees (average full-time equivalent)	25,898	20,247	28 %	25,649	20,198	27 %

(1) In the third quarter of 2026, we reclassified deposit and other insurance expense and lease financing equipment depreciation into other noninterest expense. Prior period amounts have been revised to conform with the current period presentation.

Noninterest expense in the third quarter of 2026 increased \$526 million, or 42%, from the year-ago quarter and noninterest expense for the first nine-month period of 2026 increased \$1.8 billion, or 49%, from the year-ago period. Noninterest expenses for each period presented include acquisition-related expenses, as detailed in the following table.

Table 7 - Impact of Acquisition-related Expenses

	Three Months Ended		Nine Months Ended	
	September 30, 2026	September 30, 2025	September 30, 2026	September 30, 2025
<i>(dollar amounts in millions)</i>				
Personnel costs	\$ 33	\$ —	\$ 168	\$ —
Outside data processing and other services	52	3	214	3
Equipment	2	1	36	1
Net occupancy	10	—	14	—
Professional services	5	9	27	9
Marketing	2	—	16	—
Other noninterest expense	13	1	57	1
Total impact of acquisition-related expenses	<u>\$ 117</u>	<u>\$ 14</u>	<u>\$ 532</u>	<u>\$ 14</u>

Excluding acquisition-related expenses, noninterest expense for the third quarter of 2026 was \$1.7 billion, an increase of \$423 million, or 34%, from the year-ago quarter, inclusive of the impact of the Cadence and Veritex acquisitions. Personnel costs increased \$200 million, or 26%, primarily due to higher salary and benefit expense. Outside data processing and other services increased \$43 million, or 22%, primarily reflecting higher technology and data expense. Amortization of intangibles increased \$38 million primarily due to the impact from the addition of core deposit intangibles from the acquisitions. Net occupancy increased \$29 million, or 51%, largely due to increases in lease and depreciation expense. Lastly, other noninterest expense increased \$72 million, or 79%, primarily due to an increased volume of expense activity driven by the impact of the acquisitions.

[Table of Contents](#)

Excluding acquisition-related expenses, noninterest expense for the first nine-month period of 2026 was \$4.8 billion, an increase of \$1.2 billion, or 35%, from the year-ago period, inclusive of the impact of the Cadence and Veritex acquisitions. Personnel costs increased \$674 million, or 31%, primarily due to higher salary, benefit, and incentive compensation expense. Outside data processing and other services increased \$166 million, or 30%, primarily due to higher technology and data expense. Amortization of intangibles increased \$111 million primarily due to the impact from the addition of core deposit intangibles from the acquisitions. Net occupancy expense increased \$81 million, or 46%, primarily due to increases in lease and depreciation expense. Equipment expense increased \$32 million, or 16%, primarily due to an increase in depreciation expense. Other noninterest expense increased \$136 million, or 43%, primarily due to an increased volume of expense activity driven by the impact of the acquisitions.

Provision for Income Taxes

The provision for income taxes and effective tax rate were \$172 million and 19.3%, respectively, in the third quarter of 2026, compared to \$133 million and 17.4%, respectively, in the third quarter of 2025. The provision for income taxes and effective tax rate were \$451 million and 18.5%, respectively, for the nine-month period ended September 30, 2026, compared to \$351 million and 17.0%, respectively, for the nine-month period ended September 30, 2025. The increases in the effective tax rates in both current year periods, compared to the prior year periods, related primarily to higher income before taxes, acquisition-related nondeductible expenses, and the

absence of certain prior-year tax benefits. All periods included the benefits from general business credits, tax-exempt income, tax-exempt bank-owned life insurance income, and investments in qualified affordable housing projects.

The net federal deferred tax asset was \$1.6 billion and the net state deferred tax asset was \$170 million at September 30, 2026, compared to a net federal deferred tax asset of \$856 million and a net state deferred tax asset of \$92 million at December 31, 2025.

We file income tax returns with the IRS and various state, city, and foreign jurisdictions. Federal income tax audits have been completed for tax years through 2019. The 2020-2024 tax years remain open under the statute of limitations. Also, with few exceptions, the Company is no longer subject to state, city, or foreign income tax examinations for tax years before 2021.

RISK MANAGEMENT

Our Risk Governance Framework and Risk Appetite Statement are foundational to our risk management program. The Risk Governance Framework defines the three lines of defense structure, roles, responsibilities, and requirements. The Risk Appetite Statement is approved by our Board and defines the level and types of risks we are willing to assume to achieve our corporate objectives through defined risk limits for the key risk categories to which we are exposed: credit, market, liquidity, operational, compliance, and strategic. More information on our risk management can be found in Item 1A: Risk Factors of this Quarterly Report on Form 10-Q, the Risk Factors section included in Item 1A of our 2025 Annual Report on Form 10-K, and subsequent filings with the SEC. Our definition, philosophy, and approach to risk management have not materially changed from the discussion presented in the 2025 Annual Report on Form 10-K.

Credit Risk

Credit risk is the risk of financial loss if a counterparty is not able to meet the agreed upon terms of the financial obligation. The majority of our credit risk is associated with lending activities, as the acceptance and management of credit risk is central to profitable lending. A number of other products expose the Company to credit risk, including investment securities and derivatives. Credit exposure is limited to the sum of the aggregate fair value of positions that have become favorable to us, including any accrued interest receivable due from counterparties. Potential credit losses are mitigated by derivatives through central clearing parties, careful evaluation of counterparty credit standing, selection of counterparties from a limited group of high quality institutions, collateral agreements, and other contract provisions.

[Table of Contents](#)

We focus on the early identification, monitoring, and management of all aspects of our credit risk. In addition to the traditional credit risk mitigation strategies of credit policies and processes, market risk management activities, and portfolio diversification, we use quantitative measurement capabilities utilizing external data sources, enhanced modeling technology, and internal stress testing processes. Our disciplined portfolio management processes are central to our commitment to maintaining an aggregate moderate-to-low risk appetite. In our efforts to identify risk mitigation techniques, we have focused on product design features, origination policies, and solutions for delinquent or stressed borrowers.

Loan and Lease Credit Exposure Mix

Refer to the “*Loan and Lease Credit Exposure Mix*” section of our 2025 Annual Report on Form 10-K for a description of each portfolio segment.

At September 30, 2026, our loans and leases totaled \$191.4 billion, representing a \$41.8 billion, or 28%, increase compared to \$149.6 billion at December 31, 2025. The increase was driven by a combination of the Cadence acquisition and organic growth. As of the Cadence acquisition date, acquired loans totaled \$36.9 billion, including \$17.4 billion of commercial and industrial loans, \$9.4 billion of commercial real estate loans, \$131 million of lease financing loans, \$8.2 billion of residential mortgage loans, \$1.5 billion of home equity loans, and \$264 million of other consumer loans.

The table below provides the composition of our total loan and lease portfolio.

Table 8 - Loan and Lease Portfolio Composition

(dollar amounts in millions)

	At September 30, 2026		At December 31, 2025	
Commercial:				
Commercial and industrial	\$ 93,966	49 %	\$ 69,442	46 %
Commercial real estate	22,748	12	15,209	10
Lease financing	5,885	3	5,727	4
Total commercial	122,599	64	90,378	60
Consumer:				
Residential mortgage	33,163	18	24,777	17
Automobile	15,355	8	16,168	11
Home equity	11,898	6	10,395	7
RV and marine	5,757	3	5,682	4
Other consumer	2,677	1	2,242	1
Total consumer	68,850	36	59,264	40
Total loans and leases	\$ 191,449	100 %	\$ 149,642	100 %

Our loan and lease portfolio is a managed mix of consumer and commercial credits. We manage the overall credit exposure and portfolio composition via a credit concentration policy. The policy designates specific loan types,

collateral types, and loan structures to be formally tracked and assigned maximum exposure limits as a percentage of capital. Commercial lending by NAICS categories, specific limits for CRE project types, loans secured by residential real estate, large dollar exposures, and designated high risk loan categories represent examples of specifically tracked components of our concentration management process. As of September 30, 2026, there were no identified concentrations that exceed the assigned exposure limit. Our concentration management policy is approved by the ROC and is used to ensure a high quality, well diversified portfolio that is consistent with our overall objective of maintaining an aggregate moderate-to-low risk appetite. Changes to existing concentration limits and incorporating specific information relating to the potential impact on the overall portfolio composition and performance metrics require the approval of the ROC prior to implementation.

2026 3Q Form 10-Q 15

Table of Contents

The table below provides our total loan and lease portfolio segregated by industry type. The changes in the industry composition from December 31, 2025 are consistent with the portfolio growth metrics.

Table 9 - Loan and Lease Portfolio by Industry Type

<i>(dollar amounts in millions)</i>	At September 30, 2026		At December 31, 2025	
Commercial loans and leases:				
Real estate and rental and leasing	\$	28,571 15 %	\$	20,237 14 %

RV and marine		5,757 3		5,682 4
Other consumer loans		2,677 1		2,242 1
Total loans and leases	\$	191,449 100 %	\$	149,642 100 %

(1) Amounts include \$4.4 billion and \$4.3 billion of auto dealer services loans at September 30, 2026 and December 31, 2025, respectively.

The following tables present our commercial real estate portfolio by property type and geographic location.

Table 10 - Commercial Real Estate Portfolio by Property Type

<i>(dollar amounts in millions)</i>	At September 30, 2026		At December 31, 2025	
	Amount by Property Type	% of Total Loans and Leases	Amount by Property Type	% of Total Loans and Leases
Multi-family	\$ 6,054	3 %	\$ 4,822	3 %
Warehouse/Industrial	4,136	2	3,054	2
Retail	3,462	2	2,224	1
Office	2,654	1	1,804	1
Hotel	1,910	1	1,438	1
Other	4,532	3	1,867	1
Total commercial real estate loans and leases	\$ 22,748	12 %	\$ 15,209	9 %

Table 11 - Commercial Real Estate Portfolio by Geographic Location

	At September 30, 2026		At December 31, 2025	
	Amount by Location ⁽¹⁾	% of Total CRE Loans and Leases	Amount by Location ⁽¹⁾	% of Total CRE Loans and Leases
<i>(dollar amounts in millions)</i>				
Texas	\$ 6,864	30 %	\$ 4,090	27 %
Ohio	2,228	10	2,176	14
Michigan	1,719	8	1,872	12
Florida	1,657	7	830	5
Georgia	1,357	6	347	2
Alabama	678	3	186	1
Illinois	654	3	787	5
California	605	3	406	3
Tennessee	546	2	73	—
Colorado	531	2	555	4
Other	5,909	26	3,887	27
Total commercial real estate loans and leases	\$ 22,748	100 %	\$ 15,209	100 %

(1) Geographic location based on location of underlying collateral.

Our CRE portfolio totaled \$22.7 billion at September 30, 2026, an increase of \$7.5 billion, or 50%, compared to December 31, 2025, driven by \$9.4 billion of acquired Cadence loans, partially offset by paydowns. The CRE portfolio had an associated allowance coverage of 3.9% and 3.7% at September 30, 2026 and December 31, 2025, respectively.

Credit Quality

(This section should be read in conjunction with Note 5 - "[Loans and Leases](#)" and Note 6 - "[Allowance for Credit Losses](#)" of the Notes to Unaudited Consolidated Financial Statements.)

We believe the most meaningful way to assess overall credit quality performance is through an analysis of specific performance ratios. This approach forms the basis of the discussion in the sections immediately following: NALs and NPAs, ACL, and NCOs. In addition, we utilize delinquency rates, risk distribution and migration patterns, product segmentation, and origination trends in the analysis of our credit quality performance.

NALs and NPAs

The following table presents the details of our NALs and NPAs.

Table 12 - Nonaccrual Loans and Leases and Nonperforming Assets

	At September 30, 2026		At December 31, 2025	
	Amount	% of Total Loans and Leases	Amount	% of Total Loans and Leases
<i>(dollar amounts in millions)</i>				
Nonaccrual loans and leases (NALs):				
Commercial and industrial	\$ 1,046		\$ 562	
Commercial real estate	265		133	
Lease financing	6		8	
Residential mortgage	240		107	
Automobile	8		6	
Home equity	129		113	
RV and marine	2		2	
Other consumer	1		—	
Total nonaccrual loans and leases	1,697		931	
Other real estate, net	25		13	
Other NPAs ⁽¹⁾	—		1	
Total nonperforming assets	\$ 1,722		\$ 945	
Nonaccrual loans and leases as a % of total loans and leases	0.89 %		0.62 %	
NPA ratio ⁽²⁾	0.90		0.63	

(1) Other nonperforming assets include certain impaired investment securities and/or nonaccrual loans held-for-sale.

(2) Nonperforming assets divided by the sum of loans and leases, other real estate owned, and other NPAs.

Table 13 - Nonperforming Assets Rollforward

	Nine months ended	
	September 30, 2026	September 30, 2025
<i>(dollar amounts in millions)</i>		
Nonperforming assets, beginning of period	\$ 945	\$ 822
Acquired nonperforming assets	295	—
New nonperforming assets	1,706	845
Returns to accruing status	(173)	(83)
Charge-offs	(362)	(174)
Payments	(656)	(548)
Sales	(33)	(41)
Nonperforming assets, end of period	\$ 1,722	\$ 821

NPAs totaled \$1.7 billion at September 30, 2026, a year-to-date increase of \$777 million, with the increase primarily due to acquired NPAs and additional broad-based increases in commercial and industrial, residential mortgage, and commercial real estate NALs. NALs at September 30, 2026 were not concentrated in any industry or region.

Total loans and leases		1.68 %	1.70 %
Total allowance for credit losses		272	272
NPAs		187	269
Total ACL as % of:			
Total loans and leases		1.75 %	1.83 %
Nonaccrual loans and leases		198	295
NPAs		195	290

(1) Percentages represent the percentage of each loan and lease category to total loans and leases.

The ACL coverage ratio was 1.75% at September 30, 2026, compared to 1.83% at December 31, 2025, with the decrease largely driven by portfolio mix changes associated with acquired and organic loan growth and changes in economic assumptions incorporated into the ACL estimate relative to year-end. The ACL coverage ratio at September 30, 2026 is reflective of the current macroeconomic forecast and changes in various risk profiles intended to capture uncertainty not addressed within the quantitative reserve.

Table of Contents

NCOs

The table below reflects NCO detail.

Table 16 - Net Charge-off Analysis

	Three Months Ended		Nine Months Ended	
	September 30, 2026	September 30, 2025	September 30, 2026	September 30, 2025
<i>(dollar amounts in millions)</i>				
Net charge-offs (recoveries) by loan and lease type:				
Commercial:				
Commercial and industrial ⁽¹⁾	\$ 71	\$ 39	\$ 191	\$ 119
Commercial real estate	10	(4)	15	(15)
Lease financing	—	1	(3)	7
Total commercial	81	36	203	111
Consumer:				
Residential mortgage	2	—	6	1
Automobile	15	10	42	30
Home equity	—	1	1	1
RV and marine	6	4	19	16
Other consumer	42	24	105	68
Total consumer	65	39	173	116
Total net charge-offs	\$ 146	\$ 75	\$ 376	\$ 227
Net charge-offs (recoveries) - annualized percentages:				
Commercial:				
Commercial and industrial	0.31 %	0.25 %	0.29 %	0.27 %
Commercial real estate	0.16	(0.13)	0.08	(0.18)
Lease financing	0.03	0.04	(0.05)	0.16
Total commercial	0.27	0.18	0.23	0.20
Consumer:				
Residential mortgage	0.03	0.01	0.02	0.01
Automobile	0.41	0.26	0.37	0.26
Home equity	0.01	0.01	0.01	0.01
RV and marine	0.40	0.30	0.45	0.36
Other consumer	6.30	4.92	5.50	4.89
Total consumer	0.38	0.27	0.34	0.27
Net charge-offs as a % of average loans and leases	0.31 %	0.22 %	0.27 %	0.23 %

(1) Net charge-offs for the nine months ended September 30, 2026 include \$23 million of charge-offs on certain loans previously charged off by Cadence, which were written up to the unpaid principal balance at acquisition and then immediately charged off by Huntington as required by purchase accounting.

NCOs were \$146 million, or 0.31% of average total loans and leases on an annualized basis, in the third quarter of 2026, compared to \$75 million, or 0.22%, in the year-ago quarter, with the increase reflecting higher net charge-offs in both the commercial and consumer loan portfolios.

NCOs were \$376 million, or 0.27% of average total loans and leases on an annualized basis, for the nine-month period ended September 30, 2026, compared to \$227 million, or 0.23%, for the year-ago period, with the increase also reflecting higher net charge-offs in both the commercial and consumer loan portfolios.

Market Risk

Market risk refers to potential losses arising from changes in interest rates, credit spreads, foreign exchange rates, equity prices, and commodity prices, including the correlation among these factors and their volatility. When the value of an instrument is tied to such external factors, the holder faces market risk. We are exposed primarily to interest rate risk as a result of offering a wide array of financial products to our customers, and secondarily to price risk from trading securities, securities owned by our broker-dealer subsidiaries, foreign exchange positions, equity investments, and investments in securities backed by mortgage loans.

We measure market risk exposure via financial simulation models that provide management with insights on the potential impact to net interest income and other key metrics as a result of changes in market interest rates. Models are used to simulate cash flows and accrual characteristics of the balance sheet based on assumptions regarding the slope or shape of the yield curve, the direction and volatility of interest rates, and the changing composition and characteristics of the balance sheet resulting from strategic objectives and customer behavior. Our models incorporate market-based assumptions that include the impact of changing interest rates on prepayment rates of assets and runoff rates of deposits. The models also include our projections of the future volume and pricing of various business lines.

In measuring the financial risks associated with interest rate sensitivity in our balance sheet, we compare a set of alternative interest rate scenarios to the results of a base case scenario derived using market forward rates. The market forward rates reflect the general market consensus regarding the future level and slope of the yield curve across a range of tenor points. The standard set of interest rate scenarios includes two types: “shock” scenarios, which are immediate parallel rate shifts, and “ramp” scenarios, where the parallel shift is applied gradually over the first 12 months of the forecast on a pro-rata basis. In both shock and ramp scenarios with falling rates, we presume that market rates will not go below 0%. The scenarios include all executed interest rate risk hedging activities. Forward-starting hedges are included to the extent that they have been transacted and that they start within the measurement horizon.

A key driver of our interest rate risk profile is our assumption of interest-bearing deposit repricing sensitivity to changes in interest rates, otherwise known as deposit beta. In addition, our interest expense is impacted by the composition of both interest-bearing and noninterest-bearing deposits in relation to our total deposits. Accordingly, we consider the impacts from both interest-bearing and noninterest-bearing deposits on our total deposit beta. Since the Federal Reserve began reducing the federal funds rate in the third quarter of 2024, our cumulative total deposit beta (total cost of deposits) through the third quarter of 2026 was approximately 30%.

We use two approaches to model interest rate risk: net interest income at risk (NII at Risk) and economic value of equity at risk modeling sensitivity analysis (EVE at Risk).

NII at Risk is used by management to measure the risk and impact to earnings over the next 12 months, using a wide range of interest rate scenarios, including instantaneous and gradual, as well as parallel and non-parallel, changes in interest rates. The NII at Risk results included in the table below present select gradual “ramp” -200, -100, +100 and +200 basis point parallel shift scenarios, implied by the forward yield curve over the next 12 months.

Table 17 - Net Interest Income at Risk

Basis point change scenario	At September 30, 2026			At December 31, 2025		
	Federal Funds Rate			Federal Funds Rate		
	Starting Point	Month 12 ⁽¹⁾	NII at Risk (%)	Starting Point	Month 12 ⁽¹⁾	NII at Risk (%)
+200	4.00 %	7.00 %	1.3%	3.75 %	5.25 %	2.5%
+100	4.00	6.00	0.7	3.75	4.25	0.9
Base	4.00	5.00	—	3.75	3.25	—
-100	4.00	4.00	-0.7	3.75	2.25	-0.6
-200	4.00	3.00	-0.7	3.75	1.25	-1.9

(1) Represents the federal funds rate in month 12 given a gradual, parallel “ramp” relative to the base implied forward scenario.

The NII at Risk shows that the balance sheet is asset-sensitive at both September 30, 2026, and December 31, 2025. The primary drivers to the change in sensitivity from December 31, 2025 include current and projected balance sheet composition over the simulation horizon and changes in market rates.

EVE at Risk is used by management to measure the impact of interest rate changes on the net present value of assets and liabilities, including derivative exposures, using a wide range of scenarios. The EVE results included in the table below present select immediate -200, -100, +100 and +200 basis point parallel “shock” scenarios from the yield curve term points at the specific point in time that EVE sensitivity is measured.

Table 18 - Economic Value of Equity at Risk

Basis point change scenario	Economic Value of Equity at Risk (%)			
	-200	-100	+100	+200
At September 30, 2026	2.7%	2.3%	-3.1%	-6.8%
At December 31, 2025	0.3	1.7	-3.5	-8.3

The change in sensitivity from December 31, 2025 was driven primarily by market rates and changes to actual balance sheet composition, in part due to impacts from the Cadence acquisition.

Use of Derivatives to Manage Interest Rate Risk

An integral component of our interest rate risk management strategy is the use of derivative instruments to minimize significant fluctuations in earnings caused by changes in market interest rates. A variety of derivative financial instruments, principally interest rate swaps, swaptions, floors, forward contracts, and forward-starting interest rate swaps, are used in asset and liability management activities to protect against the risk of adverse price

or interest rate movements. These instruments provide flexibility in adjusting Huntington's sensitivity to changes in interest rates without exposure to loss of principal and higher funding requirements.

Table 19 shows all swap and floor positions that are utilized for purposes of managing our exposures to the variability of interest rates. The interest rate variability may impact either the fair value of the assets and liabilities or the cash flows attributable to net interest margin. These positions are used to protect the fair value of assets and liabilities by converting the contractual interest rate on a specified amount of assets and liabilities (i.e., notional amounts) to another interest rate index. The positions are also used to hedge the variability in cash flows attributable to the contractually specified interest rate by converting the variable-rate index into a fixed rate. The volume, maturity, and mix of derivative positions change frequently as we adjust our broader interest rate risk management objectives and the balance sheet positions to be hedged. For further information, including the notional amount and fair values of these derivatives, refer to Note 15 - "[Derivative Financial Instruments](#)" of the Notes to Unaudited Consolidated Financial Statements.

[Table of Contents](#)

The following presents additional information about the interest rate swaps and floors used in Huntington's asset and liability management activities.

Table 19 - Information on Asset Liability Management Instruments

<i>(dollar amounts in millions)</i>	Notional Value	Weighted- Average Maturity (years)	Fair Value	Weighted- Average Fixed Rate
At September 30, 2026				
Asset conversion swaps				
Securities ⁽¹⁾ :				
Pay Fixed - Receive SOFR	\$ 1,548	7.47	\$ 218	2.16 %

Receive Fixed - Pay SOFR	10,599	2.97	(22)	3.51
Purchased floor spreads ⁽⁴⁾				
Purchased Floor Spread - SOFR	6,750	1.06	30	2.80 / 3.87
Purchased Floor Spread - SOFR forward-starting ⁽⁷⁾	3,200	3.49	51	2.83 / 3.83
Basis swaps ⁽⁵⁾				
Pay SOFR - Receive Fed Fund (economic hedges)	27	4.83	—	3.81
Pay Fed Fund - Receive SOFR (economic hedges)	1	9.81	—	3.99
Total swap portfolio	\$ 44,024		\$ 228	

- (1) Amounts include interest rate swaps as fair value hedges of fixed rate investment securities using the portfolio layer method.
- (2) Forward-starting swaps effective starting from July 2026 to April 2029.
- (3) Forward-starting swaps and forward-starting floor spreads effective starting from July 2026 to March 2027.
- (4) The weighted-average fixed rates for floor spreads are the weighted-average strike rates for the upper and lower bounds of the instruments.
- (5) Basis swaps have variable pay and variable receive resets. Weighted-average fixed rate column represents pay rate reset.
- (6) Forward-starting swaps effective starting from February 2026 to October 2027.
- (7) Forward-starting swaps and forward-starting floor spreads effective starting from January 2026 to December 2026.

Use of Derivatives to Manage Credit Risk

We may utilize credit derivatives as a tool to manage credit risk within the portfolio by purchasing credit protection over certain types of loan products. When we purchase credit protection, such as a CDS, we pay a fee to the seller, or CDS counterparty, in return for the right to receive a payment if a specified credit event occurs.

2026 3Q Form 10-Q 23

Table of Contents

MSRs

(This section should be read in conjunction with Note 7 - "[Mortgage Loan Sales and Servicing Rights](#)" of Notes to Unaudited Consolidated Financial Statements.)

At September 30, 2026, we had a total of \$837 million of capitalized MSRs representing the right to service \$43.9 billion in mortgage loans.

MSR fair values are sensitive to movements in interest rates, as expected future net servicing income depends on the projected outstanding principal balances of the underlying loans, which can be reduced by prepayments and declines in credit quality. Prepayments usually increase when mortgage interest rates decline and decrease when mortgage interest rates rise. We also employ hedging strategies to reduce the risk of MSR fair value changes. However, volatile changes in interest rates can diminish the effectiveness of these economic hedges. We report changes in the MSR value net of hedge-related trading activity in the mortgage banking income category of noninterest income.

MSR assets are included in servicing rights and other intangible assets in the Unaudited Consolidated Financial Statements.

Price Risk

Price risk represents the risk of loss arising from adverse movements in the prices of financial instruments that are carried at fair value and are subject to fair value accounting. We have price risk from trading securities, securities owned by our broker-dealer subsidiaries, foreign exchange positions, derivative instruments, and equity investments. We have established loss limits on the trading portfolio, on the amount of foreign exchange exposure that can be maintained, and on the amount of marketable equity securities that can be held.

Liquidity Risk

Liquidity risk is the possibility of us being unable to meet current and future financial obligations in a timely manner. The goal of liquidity management is to ensure adequate, stable, reliable, and cost-effective sources of funds to satisfy changes in loan and lease demand, unexpected levels of deposit withdrawals, investment opportunities, and other contractual obligations. We consider core earnings, strong capital ratios, and credit quality essential for maintaining high credit ratings, which allow us cost-effective access to market-based liquidity. We mitigate liquidity risk by maintaining a large, stable customer deposit base and a diversified base of readily available wholesale funding sources, including secured funding sources from the FHLB and FRB through pledged borrowing capacity, issuance through dealers in the capital markets, and access to deposits issued through brokers. We further mitigate liquidity risk by maintaining liquid assets in the form of cash and cash equivalents and securities.

The Board of Directors is responsible for establishing an acceptable level of liquidity risk at Huntington, including approval of the liquidity risk appetite at least annually. The liquidity risk appetite includes liquidity risk metrics that are designed and monitored to ensure Huntington maintains adequate liquidity to meet current and future funding needs, including during periods of potential stress. The Board receives and reviews information on at least a semi-annual basis to ensure Huntington is operating in accordance with its established risk tolerance. Further, the ALCO is appointed by the ROC to oversee liquidity risk management, including the establishment of liquidity risk policies and additional liquidity risk metrics and limits to support our overall liquidity risk appetite. Liquidity risk appetite metrics are monitored by senior management daily and are reported to the Board at least semi-annually and to ROC on a more frequent basis.

Liquidity risk is reviewed and managed continuously for the Bank and the parent company, as well as its subsidiaries. In addition, liquidity working groups meet regularly to identify and monitor liquidity positions, provide policy guidance, review funding strategies, and oversee the adherence to, and maintenance of, contingency funding plans. At September 30, 2026, management believes current sources of liquidity are sufficient to meet Huntington's on- and off-balance sheet obligations over the next 12 months and for the foreseeable future.

[Table of Contents](#)

We maintain a contingency funding plan that provides for liquidity stress testing, which assesses the potential erosion of funds in the event of an institution-specific event or systemic financial market crisis. Examples of institution specific events could include a downgrade in our public credit rating by a rating agency, a large charge to earnings, declines in profitability or other financial measures, declines in liquidity sources including reductions in deposit balances or access to contingent funding sources, or a significant merger or acquisition. Examples of systemic events unrelated to us that could have an effect on our access to liquidity would be terrorism or war, natural disasters, political events, failure of a major financial institution, or the default or bankruptcy of a major corporation, mutual fund, or hedge fund. Similarly, market speculation or rumors about us, or the banking industry in general, may adversely affect the cost and availability of normal funding sources. The contingency funding plan, which is reviewed and approved by the ROC at least annually, outlines the process for addressing a liquidity crisis and provides for an evaluation of funding sources under various market conditions. It also assigns specific roles and responsibilities and communication protocols for effectively managing liquidity through a problem period and outlines early warning indicators that are used to monitor emerging liquidity stress events.

Deposits

Our largest source of liquidity on a consolidated basis is customer deposits, which provide stable and lower-cost funding. Our customer deposits come from a base of primary bank customer relationships, and we continue to focus on acquiring and deepening those relationships, resulting in a diversified deposit base. Total deposits were \$224.7 billion at September 30, 2026, compared to \$176.6 billion at December 31, 2025. The \$48.1 billion, or 27%, increase in total deposits, compared to December 31, 2025, was primarily driven by \$43.5 billion of deposits acquired in the Cadence acquisition, in addition to organic deposit growth. Total deposits included \$5.1 billion of brokered deposits primarily consisting of brokered money market and time deposit balances at September 30, 2026, compared to \$5.9 billion at December 31, 2025. The level of brokered deposits was below our established liquidity risk metric limits at September 30, 2026.

Insured deposits comprised approximately 68% and 70% of our total deposits at September 30, 2026 and December 31, 2025, respectively. The composition of our deposits is presented in the table below.

Table 20 - Deposit Composition

<i>(dollar amounts in millions)</i>	At September 30, 2026		At December 31, 2025	
By type:				
Demand deposits—noninterest-bearing	\$	41,317 18 %	\$	32,205 18 %

Savings deposits		18,861 8		15,426 9
Time deposits		22,488 10		15,346 9
Total deposits	\$	224,678 100 %	\$	176,610 100 %
Total deposits (insured/uninsured):				
Insured deposits	\$	153,113 68 %	\$	123,744 70 %
Uninsured deposits ⁽¹⁾		71,565 32		52,866 30
Total deposits	\$	224,678 100 %	\$	176,610 100 %

(1) Represents consolidated Huntington uninsured deposits, determined by adjusting the amounts reported in the Bank Call Report (FFIEC 031) by inter-company deposits, which are not customer deposits and are therefore eliminated through consolidation. As of September 30, 2026, the Bank Call Report estimated uninsured deposit balance was \$75.9 billion, which includes \$4.3 billion of inter-company deposits. As of December 31, 2025, the Bank Call Report estimated uninsured deposit balance was \$56.9 billion, which includes \$4.1 billion of inter-company deposits.

Wholesale Funding

Sources of wholesale funding include non-customer brokered deposits, short-term borrowings, and long-term debt. Our wholesale funding totaled \$28.5 billion at September 30, 2026, an increase of \$4.1 billion compared to \$24.4 billion at December 31, 2025. The increase from year end was primarily due to a \$4.8 billion increase in short-term borrowings, primarily comprised of short-term FHLB advances, and \$1.8 billion of senior and subordinated debt issuances, partially offset by maturities and repayments.

[Table of Contents](#)

Cash and Cash Equivalents and Investment Securities

Cash and cash equivalents were \$16.8 billion and \$13.5 billion at September 30, 2026 and December 31, 2025, respectively. The \$3.3 billion increase in cash and cash equivalents was largely due to higher interest-earning deposits held at the FRB as part of prudent liquidity risk management to support our strong liquidity position.

Our investment securities portfolio is evaluated under established ALCO objectives. Changing market conditions could affect the profitability of the portfolio, as well as the level of interest rate risk exposure.

Total investment securities, comprised of AFS and HTM securities, were \$49.4 billion at September 30, 2026, compared to \$41.4 billion at December 31, 2025. The \$8.0 billion increase in investment securities, compared to December 31, 2025, was largely driven by \$9.0 billion of investment securities acquired in the Cadence transaction. At September 30, 2026, the duration of the investment securities portfolio, net of hedging, was 3.3 years. Securities are pledged to secure borrowing capacity with the FHLB and the FRB, discussed further in the *Bank Liquidity and Sources of Funding* section below.

Bank Liquidity and Sources of Funding

Our primary source of funding for the Bank is customer deposits. At September 30, 2026, customer deposits funded 76% of total assets (115% of total loans and leases). To the extent we are unable to obtain sufficient liquidity through customer deposits, cash and cash equivalents, and investment securities, we may meet our liquidity needs through wholesale funding and asset securitization or sale. Additionally, the Bank may also access funding through

intercompany notes or parent company deposits placed at the Bank.

The Bank maintains borrowing capacity at both the FHLB and the FRB secured by pledged loans and securities. While the Bank does not consider borrowing capacity at the FRB a primary source of funding, it could be used as a potential source of liquidity in a stressed environment or during a market disruption. The amount of available contingent borrowing capacity may fluctuate based on the level of borrowings outstanding and level of assets pledged.

A summary of the Bank's selected contingent liquidity sources is presented in the following table.

Table 21 - Selected Contingent Liquidity Sources

<i>(dollar amounts in millions)</i>	At September 30, 2026	At December 31, 2025
Unused secured borrowing capacity:		
FRB	\$ 87,502	\$ 71,296
FHLB	20,624	16,212
Unpledged investment securities (at market value)	11,280	11,743
Interest-earning deposits held at FRB	14,439	11,712
Selected contingent liquidity sources	<u>\$ 133,845</u>	<u>\$ 110,963</u>

As of September 30, 2026, we believe the Bank has sufficient liquidity and capital resources to meet its cash flow obligations over the next 12 months and for the foreseeable future.

Parent Company Liquidity

The parent company's primary financial obligations consist of dividends to shareholders, debt service, income taxes, operating expenses, funding of nonbank subsidiaries, repurchases of our stock, and acquisitions. The parent company obtains funding to meet obligations from dividends and interest received from the Bank, interest and dividends received from direct subsidiaries, net taxes collected from subsidiaries included in the federal consolidated tax return, fees for services provided to subsidiaries, and the issuance of debt and equity instruments.

The parent company had cash and cash equivalents of \$3.9 billion and \$3.6 billion at September 30, 2026 and December 31, 2025, respectively.

Table of Contents

On October 21, 2026, our Board of Directors declared a quarterly cash dividend on our common stock of \$0.155 per common share, payable on January 4, 2027 to shareholders of record on December 18, 2026. Additionally, on October 21, 2026, our Board of Directors declared quarterly dividends on our Series B, F, G, H, J, and K preferred stock, payable on January 15, 2027 to shareholders of record on January 1, 2027, and a quarterly dividend on our Series L preferred stock, payable on February 19, 2027 to shareholders of record on February 4, 2027. On September 14, 2026, our Board of Directors declared a quarterly dividend on our Series I preferred stock, payable on December 1, 2026 to shareholders of record on November 15, 2026. Current quarterly dividend declarations are expected to total approximately \$353 million.

During the first nine months of 2026, the Bank paid common dividends to the parent company of \$1.1 billion. During the first quarter of 2026, the Bank redeemed all of its preferred stock outstanding that had previously been held by the parent company. To meet any additional liquidity needs, the parent company may issue debt or equity securities. To support the parent company's ability to issue debt or equity securities, we have filed an automatic shelf registration statement with the SEC covering an indeterminate amount or number of securities to be offered or sold from time to time as authorized by Huntington's Board of Directors.

As of September 30, 2026, we believe the Company has sufficient liquidity and capital resources to meet its cash flow obligations over the next 12 months and for the foreseeable future.

Credit Ratings

Credit ratings represent evaluations by rating agencies based on a number of factors, including financial strength and the ability to generate earnings, as well as factors not entirely within our control, including conditions affecting the financial services industry, the economy, and changes in rating methodologies. Credit ratings are subject to change at any time. Our credit ratings impact our availability and cost of financing, as well as collateral requirements for certain derivative instruments and deposit products. A downgrade to our credit ratings could adversely affect our access to capital, increase our cost of funds, or trigger additional collateral or funding requirements.

The following table presents our credit ratings and rating agency outlooks.

	At September 30, 2026			
	Moody's	Standard & Poor's	Fitch ⁽²⁾	DBRS Morningstar
Huntington Bancshares Incorporated				
Senior unsecured notes	Baa1	BBB+	BBB+	A
Subordinated notes	Baa1	BBB	BBB	A (low)
Commercial paper	NR	NR	F1	R-1 (low)
Ratings outlook	Negative	Stable	Stable	Stable
The Huntington National Bank				
Senior unsecured notes	A3	A-	A-	A (high)
Long-term deposits	A1	NR ⁽¹⁾	A	A (high)
Short-term deposits	P-1	NR ⁽¹⁾	F1	R-1 (middle)

NR - Not Rated

- (1) Standard & Poor's does not provide a depositor rating. The Bank's long-term issuer credit rating is A- and its short-term issuer credit rating is A-2.
- (2) In September 2026, Fitch Ratings lowered the Company's senior unsecured debt rating to BBB+ and subordinated debt rating to BBB. Fitch indicated that the action reflected the application of its methodology for institutions expected to be subject to Category III regulatory standards and did not reflect a change in its assessment of the Company's underlying credit profile.

Contractual Obligations and Commitments

In the normal course of business, we enter into various contractual obligations and commitments that could impact our liquidity and capital resources. These arrangements include commitments to extend credit, interest rate swaps, floors, financial guarantees contained in standby letters-of-credit issued by the Bank, commitments by the Bank to sell mortgage loans, operating lease payments, and other purchase and marketing obligations.

2026 3Q Form 10-Q 27

Table of Contents

Operational Risk

Operational risk is the risk of loss due to human error, third-party performance failures, or inadequate or failed internal systems and controls, including the use of financial or other quantitative methodologies that may not adequately predict future results; violations of, or noncompliance with, laws, rules, regulations, prescribed practices, or ethical standards; and external influences such as market conditions, fraudulent activities, disasters, failed business contingency plans, and security risks. We continuously strive to test and strengthen our system of internal controls to ensure compliance with significant contracts, agreements, laws, rules, and regulations, to reduce our exposure to fraud and to improve the oversight of our operational risk.

To govern operational risks, we have an Operational Risk Committee, a Legal, Regulatory, and Compliance Committee, a Funds Movement and Fraud Risk Committee, an Information and Technology Risk Committee, a Regulatory and Data Oversight Committee, and a Third Party Risk Management Committee. The responsibilities of these committees, among other duties, include establishing and maintaining management information systems to monitor material risks and to identify potential concerns, risks, or trends that may have a significant impact and ensuring that recommendations are developed to address the identified issues. In addition, we have a Model Risk Oversight Committee that is responsible for policies and procedures describing how model risk is evaluated and managed and the application of the governance process to implement these practices throughout the enterprise. These committees report any significant findings and remediation recommendations to the Risk Management Committee. Potential concerns may be escalated to our ROC and our Audit Committee, as appropriate.

The goal of this framework is to implement effective operational risk monitoring; minimize operational, fraud, and legal losses; minimize the impact of inadequately designed models; and enhance our overall performance.

Cybersecurity

Cybersecurity represents an important component of Huntington's overall cross-functional approach to risk management. We actively manage a cybersecurity operation designed to detect, contain, and respond to cybersecurity threats and incidents in a prompt and effective manner with the goal of minimizing disruptions to our business. We actively monitor for cyberattacks, such as attempts related to online deception and loss of sensitive customer data. We evaluate our technology, processes, and controls to mitigate loss from cyberattacks. Although to date we have not experienced any material losses due to cyberattacks, with the increasing sophistication, acceleration, and complexity of cyber events, including from developments in artificial intelligence and other emerging technologies, we cannot ensure that there will not be a material loss in the future. Cybersecurity threats continue to evolve and increase across the entire digital landscape. In response to the evolving threat landscape, we continue to enhance our cybersecurity, operational resilience, and third-party risk management capabilities, including efforts designed to improve the speed of vulnerability identification, remediation, monitoring, and recovery. We actively monitor our environment for malicious content and implement specific cybersecurity and fraud capabilities, including the monitoring of phishing email campaigns. In addition, we have implemented specific cybersecurity and fraud monitoring of remote connections by geography and volume of connections to detect anomalous remote logins, since a portion of our workforce works remotely from time to time.

Our objective for managing cybersecurity risk is to avoid or minimize the impacts of both internal and external threat events or other efforts to penetrate our systems. We work to achieve this objective by hardening networks and systems against attack and by diligently managing visibility and monitoring controls within our data and communications environment to recognize events and respond before the attacker has the opportunity to plan and execute on its own goals. To this end, we employ a set of defense-in-depth strategies, which include efforts to make us less attractive as a target and less vulnerable to threats, while investing in threat analytic capabilities for rapid detection and response. Potential concerns related to cybersecurity may be escalated to our board-level ROC and/or Technology Committee, as appropriate.

As a complement to the overall cybersecurity risk management, we use a number of internal training methods, both formally through mandatory courses and informally through written communications and other updates, to ensure awareness of the risks of cybersecurity threats at all levels across the organization. Internal policies and procedures have been implemented to encourage the reporting of potential phishing attacks or other security risks. We also use third-party services to test the effectiveness of our cybersecurity risk management framework, and any such third-parties are required to comply with our policies regarding information security and confidentiality.

Compliance Risk

Compliance risk arises from the possibility that we may fail to comply with the extensive federal and state laws, rules, and regulations that govern our operations. These requirements span a broad range of obligations, including anti-money laundering, consumer protection, lending and servicing standards, client privacy, fair lending, prohibitions against unfair, deceptive, or abusive acts or practices, protections for military service members, and community reinvestment expectations.

We maintain a comprehensive compliance management framework designed to identify, assess, monitor, and report compliance risk across the Company. This framework is supported by dedicated compliance professionals who partner with our business segments to implement and maintain effective policies, procedures, and controls consistent with applicable regulatory requirements. Our colleagues receive mandatory training on core regulatory obligations such as anti-money laundering and customer privacy, with additional targeted training for those engaged in lending activities, including flood disaster protection, equal credit opportunity, and fair lending.

We continue to invest in systems, processes, and governance to support compliance with evolving regulatory expectations. Ongoing changes in regulatory requirements and supervisory priorities may affect our compliance risk profile. We remain committed to maintaining strong compliance practices and to enhancing our compliance program as necessary to align with applicable laws, rules, and regulations and to support our aggregate moderate-to-low, through-the-cycle risk appetite.

CAPITAL

Our primary capital objective is to maintain appropriate levels of capital within our Board-approved risk appetite to support the Bank's operations, absorb unanticipated losses and declines in asset values, and provide protection to uninsured depositors and debt holders in the event of liquidation, while also funding organic growth and providing appropriate returns to our shareholders. We manage regulatory capital and shareholders' equity at the Bank and on a consolidated basis. We have an active program for managing capital, and we maintain a comprehensive process for assessing our overall capital adequacy, including the monitoring and reporting of capital risk metrics to the Board and ROC that we believe are useful for evaluating capital adequacy and making capital decisions. In addition to as-reported regulatory capital and tangible common equity metrics, we also actively monitor other measures of capital, such as tangible common equity including the mark-to-market impact on HTM securities and CET1 including the impact of AOCl excluding cash flow hedges. We believe our current levels of both regulatory capital and shareholders' equity are adequate.

[Table of Contents](#)

The following table presents certain regulatory capital information at both the consolidated and Bank level.

<i>(dollar amounts in millions)</i>	At September 30, 2026	At December 31, 2025
Consolidated:		
CET1 risk-based capital ratio	10.1 %	10.4 %
Tier 1 risk-based capital ratio	11.5	12.0
Total risk-based capital ratio	13.7	14.2
Tier 1 leverage ratio	9.0	9.3
CET1 risk-based capital	\$ 21,684	\$ 17,286
Tier 1 risk-based capital	24,575	20,027
Total risk-based capital	29,376	23,593
Total risk-weighted assets	214,442	166,684
Bank:		
CET1 risk-based capital ratio	11.9 %	11.7 %
Tier 1 risk-based capital ratio	12.1	12.4
Total risk-based capital ratio	14.0	14.0
Tier 1 leverage ratio	9.5	9.6
CET1 risk-based capital	\$ 25,523	\$ 19,426

Table 23: Regulatory Capital Information

At Risk Assets	25,944	20,626
Total risk-based capital	29,830	23,165
Total risk-weighted assets	213,584	165,701

At September 30, 2026, Huntington and the Bank maintained capital ratios in excess of the well-capitalized standards established by the Federal Reserve. Our consolidated CET1 risk-based capital ratio was 10.1% at September 30, 2026, compared to 10.4% at December 31, 2025, with the decrease driven by higher risk-weighted assets primarily resulting from loan growth, the impact of the Cadence acquisition, and share repurchases, partially offset by an increase in regulatory capital from current period earnings, net of dividends. The Bank CET1 risk-based capital ratio of 11.9% increased approximately 20 basis points from year-end driven by bank earnings, net of upstream dividends to the parent, and a \$780 million capital contribution from the parent, which the Bank in turn used to redeem its outstanding preferred stock held by the parent, partially offset by higher risk-weighted assets and the impact of the Cadence acquisition.

We are authorized to make capital distributions that are consistent with the requirements in the Federal Reserve's capital rule, including the SCB requirement. Our SCB requirement is 2.5%.

Shareholders' Equity

We generate shareholders' equity primarily through the retention of earnings, net of dividends and share repurchases. Other potential sources of shareholders' equity include issuances of common and preferred stock. Our objective is to maintain capital at an amount commensurate with our risk appetite and risk tolerance objectives, to meet both regulatory and market expectations, and to provide the flexibility needed for future growth and business opportunities.

Shareholders' equity totaled \$32.2 billion at September 30, 2026, an increase of \$7.8 billion, or 32%, when compared with December 31, 2025. The increase was primarily driven by \$8.3 billion of common and preferred equity issued as consideration for the Cadence acquisition, in addition to earnings, net of dividends, that were partially offset by share repurchases and a reduction in accumulated other comprehensive income driven by changes in interest rates. Our common dividend and total payout ratios were 52% and 74%, respectively, for the first nine-month period of 2026, compared to 43% for both ratios for the same period of 2025. The year-over-year increase in the common dividend payout ratio was due to the impact of acquisition-related expenses on earnings.

[Table of Contents](#)

Share Repurchases

From time to time, our Board of Directors authorizes the Company to repurchase shares of our common stock. Although we announce when our Board authorizes share repurchases, we typically do not give any public notice before we repurchase our shares at any particular time. Share repurchases may include open market purchases, through block trades, in privately negotiated transactions, and pursuant to any trading plan that may be adopted by the Company's management in accordance with Rule 10b5-1 of the Securities Exchange Act of 1934, as amended, or otherwise, and is subject to the Federal Reserve's capital regulations. The timing of repurchases will be discretionary and depend on several factors, including the macroeconomic and interest rate environment, the pace of loan growth, and other factors.

On April 22, 2026, our Board approved the repurchase of up to \$3.0 billion of common shares with no expiration date. During the nine months ended September 30, 2026, we repurchased 24.8 million shares totaling \$409 million. As of September 30, 2026, we had \$2.85 billion of common shares remaining for repurchase under the current Board-approved authorization.

BUSINESS SEGMENT DISCUSSION

Overview

Our business segments are based on our internally aligned segment leadership structure, which is how management monitors results and assesses performance. We have two business segments: Consumer & Regional Banking and Commercial Banking. All other items not included within our two business segments are reported within the Treasury / Other function, which primarily includes technology and operations and other unallocated assets, liabilities, revenue, and expense.

Business segment results are determined based on our management practices, which assign balance sheet and income statement items to each of the business segments. The process is designed around our organizational and management structure and, accordingly, the results derived are not necessarily comparable with similar information published by other financial institutions.

Revenue Sharing

Revenue is recorded in the business segment responsible for the related product or service. Fee sharing is recorded to allocate portions of such revenue to other business segments involved in selling to or providing service to customers. Results of operations for the business segments reflect these fee-sharing allocations.

Expense Allocation

The management process that develops the business segment reporting utilizes various estimates and allocation methodologies to measure the performance of the business segments. Expenses are allocated to business segments using a two-phase approach. The first phase consists of measuring and assigning unit costs (activity-based costs) to activities related to product origination and servicing. These activity-based costs are then extended, based on volumes, with the resulting amount allocated to business segments that own the related products. The second phase consists of the allocation of overhead costs to the business segments from Treasury / Other. We utilize a full-

allocation methodology, where all Treasury / Other expenses, except reported acquisition-related expenses, if any, and a small amount of other residual unallocated expenses, are allocated to the business segments.

Funds Transfer Pricing (FTP)

We use an active and centralized FTP methodology to attribute appropriate net interest income to the business segments. The intent of the FTP methodology is to transfer interest rate risk from the business segments by providing modeled duration funding of assets and liabilities. The result is to centralize the financial impact, management, and reporting of interest rate risk in the Treasury / Other function where it can be centrally monitored and managed. The Treasury / Other function charges (credits) an internal cost of funds for assets held in (or pays for funding provided by) each business segment. The FTP rate is based on prevailing market interest rates for comparable duration assets (or liabilities). The primary components of the FTP rate include a base (market) rate, a liquidity premium, contingent liquidity and collateral charges, and option cost.

Total assets under management (in billions)—eop	\$ 48.7	\$ 37.0	\$ 11.7	32
Total trust assets (in billions)—eop	67.8	57.5	10.3	18

Consumer & Regional Banking net income was \$1.5 billion in the nine-month period of 2026, an increase of \$496 million, or 50%, compared to the year-ago period. Segment net interest income increased \$1.3 billion, or 42%, primarily due to a \$27.9 billion, or 38%, increase in average loans and leases, which includes the Cadence and Veritex acquisitions, and a 23 basis point increase in NIM. Provision for credit losses decreased \$37 million due to changes in the loan portfolio, partially offset by higher net charge-offs and loan growth. Noninterest income increased \$226 million, or 21%, primarily due to the impact of the Cadence and Veritex acquisitions, as well as growth in customer deposit fee income, wealth and asset management revenue, and payments and cash management revenue. Noninterest expense increased \$891 million, or 36%, primarily due to incremental expenses associated with the Cadence and Veritex acquisitions, along with higher indirect expense allocations and personnel costs.

Commercial Banking

Table 26 - Key Performance Indicators for Commercial Banking

	Nine Months Ended		Change	
	September 30, 2026	September 30, 2025	Amount	Percent
<i>(dollar amounts in millions)</i>				
Net interest income	\$ 2,065	\$ 1,564	\$ 501	32 %
Provision for credit losses	143	34	109	321
Net interest income after provision for credit losses	1,922	1,530	392	26
Noninterest income	783	557	226	41
Noninterest expense:				
Direct personnel costs	581	440	141	32
Other noninterest expense, including corporate allocations	697	499	198	40
Total noninterest expense	1,278	939	339	36
Income before income taxes	1,427	1,148	279	24
Provision for income taxes	300	241	59	24
Income attributable to non-controlling interest	11	14	(3)	(21)
Net income attributable to Huntington	\$ 1,116	\$ 893	\$ 223	25 %
Number of employees (average full-time equivalent)	2,719	2,200	519	24 %
Total average assets	\$ 93,545	\$ 69,522	\$ 24,023	35
Total average loans/leases	82,775	59,933	22,842	38
Total average deposits	61,333	44,129	17,204	39
Net interest margin	3.25 %	3.33 %	(0.08)%	(2)
NCOs	\$ 84	\$ 46	\$ 38	83
NCOs as a % of average loans and leases	0.14 %	0.10 %	0.04 %	40

Commercial Banking net income was \$1.1 billion in the first nine-month period of 2026, an increase of \$223 million, or 25%, compared to the year-ago period. Segment net interest income increased \$501 million, or 32%, primarily driven by a \$22.8 billion, or 38%, increase in average loans and leases, partially offset by a \$17.2 billion, or 39%, increase in average deposits. The increases in loans and leases and deposits were driven by the impact of the Cadence and Veritex acquisitions, as well as organic growth. The provision for credit losses increased \$109 million primarily due to loan and lease growth. Noninterest income increased \$226 million, or 41%, primarily due to the contributions of Cadence and Veritex, and an additional increase in capital markets and advisory fees, which included the impact of three strategic business units acquired from Janney in January 2026. Customer deposit and loan fees and payment and cash management revenue were also higher. Noninterest expense increased \$339 million, or 36%, primarily driven by higher personnel expense related to the recent acquisitions and higher allocated overhead.

Treasury / Other

The Treasury / Other function includes revenue and expense related to assets, liabilities, derivatives (including mark-to-market of interest rate swaps, as applicable), and equity not directly assigned or allocated to one of the business segments. Assets include investment securities and bank-owned life insurance.

Net interest income includes the impact of administering our investment securities portfolios, the net impact of derivatives used to hedge interest rate sensitivity, and the financial impact associated with our FTP methodology, as described above. Noninterest income includes miscellaneous fee income not allocated to other business segments, such as bank-owned life insurance income and securities and trading asset gains or losses. Noninterest expense includes certain corporate administrative expenses, acquisition-related expenses, if any, and other miscellaneous expenses not allocated to other business segments. The provision for income taxes for the business segments is calculated at a statutory 21% tax rate, although our overall effective tax rate is lower.

Number of employees (average full-time equivalent)	9,117	6,758	2,359	35 %
Total average assets	\$ 71,912	\$ 58,901	\$ 13,011	22

Treasury / Other had a net loss of \$639 million in the first nine-month period of 2026, compared to a net loss of \$199 million in the year-ago period, driven by acquisition-related expenses, an increase in net interest loss, and a reduction in corporate allocations, partially offset by higher noninterest income and an increase in the benefit for

income taxes. Net interest loss increased \$144 million primarily due to the net impact of FTP credits assigned to each business segment. The increase in noninterest income was largely due to the addition of Cadence and Veritex, while the increase in noninterest expense was largely due to acquisition-related expenses. The benefit for income taxes increased \$91 million primarily due to an increase in pre-tax loss.

ADDITIONAL DISCLOSURES

Forward-Looking Statements

This Quarterly Report on Form 10-Q, including MD&A, contains certain forward-looking statements, including, but not limited to, certain plans, expectations, goals, projections, and statements, which are not historical facts and are subject to numerous assumptions, risks, estimates, and uncertainties that are beyond the control of Huntington. Statements that do not describe historical or current facts, including statements about beliefs and expectations, are forward-looking statements. Forward-looking statements may be identified by words such as expect, anticipate, continue, believe, intend, estimate, plan, trend, objective, target, goal, or similar expressions, or future or conditional verbs such as will, may, might, should, would, could, or similar variations. The forward-looking statements are intended to be subject to the safe harbor provided by Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and the Private Securities Litigation Reform Act of 1995.

[Table of Contents](#)

While there is no assurance that any list of risks and uncertainties or risk factors is complete, below are certain factors which could cause actual results to differ materially from those contained or implied in the forward-looking statements or historical performance: changes in general economic, political, regulatory, or industry conditions; deterioration in business and economic conditions, including persistent inflation, supply chain issues or labor shortages; instability in global economic conditions and geopolitical conditions, including U.S. direct involvement in war and other conflicts, as well as volatility in financial markets; changes in U.S. trade policies, including the imposition of tariffs and retaliatory tariffs; the impact of pandemics and other catastrophic events or disasters on the global economy and financial market conditions and our business, results of operations, and financial condition; the impacts related to or resulting from bank failures and other volatility, including potential increased regulatory requirements and costs, such as FDIC special assessments, long-term debt requirements and heightened capital requirements; potential impacts to macroeconomic conditions, which could affect the ability of depository institutions, including us, to attract and retain depositors and to borrow or raise capital; unexpected outflows of deposits which may require us to sell investment securities at a loss; changing interest rates which could negatively impact the value of our portfolio of investment securities; the loss of value of our investment portfolio which could negatively impact market perceptions of us and could lead to deposit withdrawals; market perceptions of us and banks generally, including from the effects of social media; cybersecurity risks; uncertainty in U.S. fiscal and monetary policy, including the interest rate policies of the Federal Reserve; volatility and disruptions in global capital, foreign exchange, and credit markets; movements in interest rates; competitive pressures on product pricing and services; success, impact, and timing of our business strategies, including market acceptance of any new products or services including those implementing our “Fair Play” banking philosophy; introduction of new competitive products, such as stablecoins, and new competitors, such as financial technology companies and other “nontraditional” bank competitors; changes in policies and standards for regulatory review of bank mergers; the nature, extent, timing, and results of governmental actions, examinations, reviews, reforms, regulations, and interpretations, including those related to the Dodd-Frank Act and the Basel III regulatory capital reforms, as well as those involving the SEC, the OCC, the Federal Reserve, the FDIC, the CFPB, and state-level regulators; the possibility that the anticipated benefits of recent or proposed acquisitions are not realized when expected or at all, including as a result of the impact of, or problems arising from, the integration of the companies or as a result of the strength of the economy and competitive factors in the areas where the companies do business; and other factors that may affect the future results of Huntington.

All forward-looking statements are expressly qualified in their entirety by the cautionary statements set forth above. Forward-looking statements speak only as of the date they are made and are based on information available at that time. Huntington does not assume any obligation to update forward-looking statements to reflect actual results, new information or future events, changes in assumptions or changes in circumstances or other factors affecting forward-looking statements that occur after the date the forward-looking statements were made or to reflect the occurrence of unanticipated events except as required by federal securities laws. If Huntington updates one or more forward-looking statements, no inference should be drawn that Huntington will make additional updates with respect to those or other forward-looking statements. As forward-looking statements involve significant risks and uncertainties, caution should be exercised against placing undue reliance on such statements.

Non-GAAP Financial Measures

This document contains GAAP financial measures and non-GAAP financial measures, including FTE net interest income, FTE total revenue, FTE net interest margin, and the efficiency and tangible common equity ratios, where management believes it to be helpful in understanding our results of operations or financial position. Where non-GAAP financial measures are used, the comparable GAAP financial measure, as well as the reconciliation to the comparable GAAP financial measure, for FTE net interest income and FTE total revenue can be found in Table 1 in this report and in the reconciliation below for the efficiency and tangible common equity ratios.

2026 3Q Form 10-Q 35

[Table of Contents](#)

Fully-Taxable Equivalent Basis

Interest income, yields, and ratios on an FTE basis are considered non-GAAP financial measures. Management believes net interest income on an FTE basis provides an insightful picture of the interest margin for comparison purposes. The FTE basis also allows management to assess the comparability of revenue arising from both taxable and tax-exempt sources. The FTE basis assumes a federal statutory tax rate of 21%. We encourage readers to consider the Unaudited Consolidated Financial Statements and other financial information contained in this Form 10-Q in their entirety, and not to rely on any single financial measure.

Non-Regulatory Capital Ratios

In addition to capital ratios defined by banking regulators, the Company considers various other measures when evaluating capital utilization and adequacy, including tangible common equity to tangible assets.

Non-regulatory capital ratios are viewed by management as useful additional methods of reflecting the level of capital available to withstand unexpected market conditions. Additionally, presentation of these ratios allows readers to compare our capitalization to other financial services companies. These ratios differ from capital ratios defined by banking regulators principally in that the numerator excludes goodwill and other intangible assets, the nature and extent of which varies among different financial services companies. These ratios are not defined in GAAP or federal banking regulations. As a result, non-regulatory capital ratios disclosed by the Company are considered non-GAAP financial measures.

Because there are no standardized definitions for non-regulatory capital ratios, the Company's calculation methods may differ from those used by other financial services companies. Also, there may be limits in the usefulness of these measures to investors. As a result, we encourage readers to consider the Unaudited Consolidated Financial Statements and other financial information contained in this Form 10-Q in their entirety, and not to rely on any single financial measure.

The following table provides a reconciliation of the Company's tangible common equity to tangible assets ratio.

	September 30, 2026	December 31, 2025
<i>(dollar amounts in millions)</i>		
Calculation of tangible equity / asset ratio:		
Total Huntington shareholders' equity	\$ 32,179	\$ 24,342
Goodwill and other intangible assets	(10,393)	(6,142)
Deferred tax liability on other intangible assets ⁽¹⁾	182	30
Total tangible equity	21,968	18,230
Preferred equity	(2,881)	(2,731)
Total tangible common equity	\$ 19,087	\$ 15,499
Total assets	\$ 287,833	\$ 225,106
Goodwill and other intangible assets	(10,393)	(6,142)
Deferred tax liability on other intangible assets ⁽¹⁾	182	30
Total tangible assets	\$ 277,622	\$ 218,994
Shareholders' equity / total assets	11.2 %	10.8 %
Tangible equity / tangible asset ratio	7.9	8.3
Tangible common equity / tangible asset ratio	6.9	7.1

(1) Deferred tax liability related to other intangible assets is calculated at a 21% tax rate.

Efficiency Ratio

The following table provides a reconciliation of the Company's efficiency ratio.

(amounts in millions)	Three Months Ended		Nine Months Ended	
	September 30, 2026	September 30, 2025	September 30, 2026	September 30, 2025
Noninterest expense (GAAP)	\$ 1,772	\$ 1,246	\$ 5,355	\$ 3,595
Less: Intangible amortization	49	11	144	33
Noninterest expense less amortization of intangibles (non-GAAP)	\$ 1,723	\$ 1,235	\$ 5,211	\$ 3,562
Net interest income	\$ 2,069	\$ 1,506	\$ 6,012	\$ 4,399
Noninterest income	722	628	2,189	1,593
Total Revenue (GAAP)	2,791	2,134	8,201	5,992
Add: FTE adjustment ⁽¹⁾	21	17	60	48
Less: Gains (losses) on sales of securities	—	—	15	(58)
FTE revenue less gains (losses) on sales of securities (non-GAAP)	\$ 2,812	\$ 2,151	\$ 8,246	\$ 6,098
Efficiency Ratio ⁽²⁾	61.2 %	57.4 %	63.2 %	58.4 %

(1) Calculated on an FTE basis, which represents a non-GAAP measure, assuming a 21% tax rate.

(2) Noninterest expense less amortization of intangibles divided by the sum of FTE net interest income and noninterest income excluding gains (losses) on sales of securities, which represents a non-GAAP measure.

Critical Accounting Policies and Use of Significant Estimates

Our Unaudited Consolidated Financial Statements are prepared in accordance with GAAP. The preparation of financial statements in conformity with GAAP requires us to establish accounting policies and make estimates that affect amounts reported in our Unaudited Consolidated Financial Statements. Note 1 - "Significant Accounting Policies" of the Notes to Consolidated Financial Statements included in our 2025 Annual Report on Form 10-K, as supplemented by this report including this MD&A, describes the significant accounting policies we used in our Unaudited Consolidated Financial Statements.

An accounting estimate requires assumptions and judgments about uncertain matters that could have a material effect on the Unaudited Consolidated Financial Statements. Estimates are made under facts and circumstances at a point in time, and changes in those facts and circumstances could produce results substantially different from those estimates. Our critical accounting policies include the allowance for credit losses, fair value measurements of certain acquired assets, and goodwill. The following details the policies, assumptions, and judgments related to the allowance for credit losses and acquisition fair value measurements. The policies, assumptions, and judgments related to goodwill are described in the Critical Accounting Policies and Use of Significant Estimates section within the MD&A of Huntington's 2025 Annual Report on Form 10-K.

Allowance for Credit Losses

Our ACL at September 30, 2026 represents our current estimate of the lifetime credit losses expected from our loan and lease portfolio and our unfunded lending commitments. Management estimates the ACL by projecting probability of default, loss given default, and exposure at default, conditional on economic parameters, for the remaining contractual term. Internal factors that impact the quarterly allowance estimate include the level of outstanding balances, the portfolio performance, and assigned risk ratings. We utilize statistically based models that employ assumptions about current and future economic conditions throughout the contractual life of our loan portfolio. As part of our model risk oversight, we perform ongoing monitoring of model performance to assess modeling approaches and identify potential model enhancements, which may result in updates to our statistically based models from time to time.

One of the most significant judgments influencing the ACL estimate is the macroeconomic forecasts. Key external economic parameters that directly impact our loss modeling framework include forecasted unemployment rates and GDP. Changes in the economic forecasts could significantly affect the estimated credit losses, which could potentially lead to materially different allowance levels from one reporting period to the next.

2026 3Q Form 10-Q 37

Table of Contents

Given the dynamic relationship between macroeconomic variables within our modeling framework, it is difficult to estimate the impact of a change in any one individual variable on the allowance. As a result, management uses a probability-weighted approach that incorporates a baseline, an adverse, and a more favorable economic scenario when formulating the quantitative estimate.

To illustrate a hypothetical sensitivity analysis, management calculated a quantitative allowance using a 100% weighting applied to an adverse scenario reflecting an amount of stress in excess of current expectations. Under this scenario, as an example, the unemployment rate increases significantly from baseline levels peaking in the fourth quarter of 2027 and GDP declines significantly. The unemployment rate in this adverse scenario is projected to peak at 8.4% in the fourth quarter of 2027. This is approximately 3.7% higher than the baseline scenario projected peak of 4.7%. In addition, GDP is significantly lower in the adverse scenario, with GDP turning negative for the remainder of 2026 before turning positive in the third quarter of 2027 but staying below 2%.

To demonstrate the sensitivity to key economic parameters used in the calculation of our ACL at September 30, 2026, management calculated the difference between our quantitative ACL and this 100% adverse scenario. Excluding consideration of qualitative adjustments, this sensitivity analysis would result in a hypothetical increase in our ACL of approximately \$1.1 billion at September 30, 2026.

The resulting difference is not intended to represent an expected increase in allowance levels for a number of reasons including the following:

- Management uses a weighted approach applied to multiple economic scenarios for its allowance estimation

- process;
- The highly uncertain economic environment;
- The difficulty in predicting the inter-relationships between the economic parameters used in the various economic scenarios; and
- The sensitivity estimate does not account for any general reserve components and associated risk profile adjustments incorporated by management as part of its overall allowance framework.

We regularly review our ACL for appropriateness by performing on-going evaluations of the loan and lease portfolio. In doing so, we consider factors such as the differing economic risks associated with each loan category, the financial condition of specific borrowers, the level of delinquent loans, the value of any collateral and, where applicable, the existence of any guarantees or other documented support. We also evaluate the impact of changes in key economic parameters and overall economic conditions on the ability of borrowers to meet their financial obligations when quantifying our exposure to credit losses and assessing the appropriateness of our ACL at each reporting date. Large loan exposures may be addressed through a portfolio heterogeneity reserve. We also consider how significant changes in underwriting policies and procedures could impact the ACL, including consideration of material changes in portfolio growth rates or credit terms. Any changes to management and staffing that could impact lending, collections, or other relevant departments that could increase risk within the allowance process are also contemplated. Observed changes in the quality of the credit review process identified by the second and third line reviews are also given appropriate consideration.

There is no certainty that our ACL will be appropriate over time to cover losses in our portfolio as economic and market conditions may ultimately differ from our reasonable and supportable forecast. Additionally, events adversely affecting specific customers, industries, or our markets, such as geopolitical instability or risks of elevated interest rates for longer including a near-term recession, could severely impact our current expectations. If the credit quality of our customer base materially deteriorates or the risk profile of a market, industry, or group of customers changes materially, our net income and capital could be materially adversely affected which, in turn could have a material adverse effect on our financial condition and results of operations. The extent to which the geopolitical instability and risks of elevated interest rates will continue to negatively impact our businesses, financial condition, liquidity, and results will depend on future developments, which are highly uncertain and cannot be forecasted with precision at this time. For more information, see Note 5 - "[Loans and Leases](#)" and Note 6 - "[Allowance For Credit Losses](#)" of the Notes to Unaudited Consolidated Financial Statements.

Acquisition Fair Value Measurements

The acquisition method of accounting requires assets and liabilities in business combinations to be recorded at their estimated fair values as of the date of acquisition. To estimate fair value, we apply various valuation

Table of Contents

methodologies to assets acquired and liabilities assumed that often involve significant judgment. Examples of such estimates include loans and core deposit intangible assets, both of which we developed using an income approach. To value loans, management incorporated assumptions such as discount rates, prepayment speeds, expected credit losses, and recovery speeds based on recent origination and market data. The methodology used to value CDI assets considered the cost savings generated from the deposits relative to an alternative source of funds. Management incorporated assumptions in the CDI valuation such as customer attrition, discount rates, alternative cost of funding, and net maintenance costs. Changes in these assumptions could result in materially different fair value measurements that may impact the Company's financial condition, results of operations, or disclosures. Discussion of the assumptions and estimates used by us to assess and determine fair values associated with business combinations can be found in Note 3 - "[Business Combinations](#)" of the Notes to Unaudited Consolidated Financial Statements.

Goodwill

Subsequent to the completion of our annual impairment test, as described in the Critical Accounting Policies and Use of Significant Estimates section within the MD&A of Huntington's 2025 Annual Report on Form 10-K, we completed the acquisitions of Veritex and Cadence effective October 20, 2025, and February 1, 2026, respectively, which resulted in the recognition of additional goodwill of \$450 million and \$3.5 billion, respectively. Because this goodwill arose after our annual testing date, it was not included in the annual impairment analysis performed as of October 1, 2025. However, the additions of Veritex and Cadence did not change our conclusion with respect to goodwill impairment and no triggering event occurred through the end of the third quarter of 2026 that required a reassessment of goodwill. The goodwill recognized in connection with the acquisitions has been assigned to our reporting units based on our assessment of how the acquired business will be integrated and how its operations will be managed. For more information, see Note 8 - "[Goodwill and Other Intangible Assets](#)" of the Notes to the Unaudited Consolidated Financial Statements.

Recent Accounting Pronouncements and Developments

Note 2 - "[Accounting Standards Update](#)" of the Notes to Unaudited Consolidated Financial Statements discusses, if applicable, new accounting pronouncements adopted during 2026 and the expected impact of accounting pronouncements recently issued but not yet required to be adopted. To the extent the adoption of new accounting standards materially affects financial condition, results of operations, or liquidity, the impacts are discussed in the applicable section of this MD&A and the Notes to Unaudited Consolidated Financial Statements.

Huntington Bancshares Incorporated
Notes to Unaudited Consolidated Financial Statements
1. BASIS OF PRESENTATION

The accompanying interim Unaudited Consolidated Financial Statements of Huntington reflect all adjustments consisting of normal recurring accruals which are, in the opinion of management, necessary for a fair statement of the consolidated financial position, the results of operations, and cash flows for the periods presented. These interim Unaudited Consolidated Financial Statements have been prepared according to the rules and regulations of the SEC and, therefore, certain information and footnote disclosures normally included in annual financial statements prepared in accordance with GAAP have been omitted. The Notes to Consolidated Financial Statements appearing in Huntington's 2025 Annual Report on Form 10-K, which include descriptions of significant accounting policies, as updated by the information contained in this report, should be read in conjunction with these interim financial statements.

In conjunction with applicable accounting standards, all material subsequent events have been either recognized in the interim Unaudited Consolidated Financial Statements or disclosed in the Notes to Unaudited Consolidated Financial Statements. There were no other material subsequent events to disclose for the current period.

In the third quarter of 2026, we reclassified insurance income and leasing revenue into other noninterest income, and we reclassified deposit and other insurance expense and lease financing equipment depreciation into other noninterest expense. Prior period amounts have been revised to conform with the current period presentation.

2. ACCOUNTING STANDARDS UPDATE
Accounting standards not yet effective

Standard	Summary of guidance	Effects on financial Statements
ASU 2025-09 - Derivatives and Hedging (Topic 815): Hedge Accounting Improvements	• More closely aligns hedge accounting with the economics of an entity's risk management activities. • Allows grouping of forecasted transactions with similar risk exposure. • Enables hedging of variable price components of forecasted purchases or sales of nonfinancial assets. • Introduces a model for hedging interest payments on debt instruments with multiple rate options and allows a borrower to select a documented interest rate index and/or tenor without automatically discontinuing hedge accounting. • Removes the requirement for net written option test in certain compound derivative hedges.	• Effective for interim and annual reporting periods beginning after December 15, 2026, with early adoption permitted on any date on or after issuance of the ASU. • The amendments should be applied prospectively to all hedging relationships beginning on or after the date of adoption. • In the period of adoption, an entity must disclose the nature of, and reason for, the change in accounting principle and the method of applying the change. • Huntington is in the process of evaluating the impact of this ASU on its consolidated financial statements.

3. BUSINESS COMBINATIONS
Veritex Acquisition

On October 20, 2025, Huntington completed the acquisition of Veritex Holdings, Inc. ("Veritex"), a bank holding company headquartered in Dallas, Texas, pursuant to the Agreement and Plan of Merger dated July 13, 2025 ("Veritex Merger Agreement"). Upon completion of the acquisition, Veritex merged with and into Huntington, with Huntington as the surviving company, immediately followed by the merger of Veritex's wholly owned subsidiary bank, Veritex Community Bank, with and into Huntington's wholly owned subsidiary bank, Huntington National Bank, with Huntington National Bank as the surviving bank.

[Table of Contents](#)

Under the terms of the Veritex Merger Agreement, Huntington issued 1.95 shares of its common stock for each outstanding share of Veritex common stock ("Veritex Merger Consideration"), in a 100% stock transaction, with cash paid in lieu of fractional shares. In addition, each holder of an outstanding Veritex stock option received cash equal to the per-share value of the Veritex Merger Consideration over the per-share exercise price, while any Veritex stock option with a per-share exercise price that was equal to or greater than the per share value of the Merger Consideration was cancelled for no consideration, and each outstanding restricted stock unit representing a right to receive Veritex common stock was converted into a restricted stock unit representing a right to receive Huntington's

common stock as adjusted by the 1.95 exchange ratio. Upon completion of the merger, Huntington issued 107 million shares of its common stock to Veritex shareholders of record as of the merger date, in addition to 1 million shares issued upon the conversion of certain Veritex equity awards, resulting in total consideration from the transaction of \$1.7 billion based on the closing price of Huntington's common stock on October 17, 2025.

The acquisition of Veritex constituted a business combination in accordance with ASC Topic 805, Business Combinations. Accordingly, the assets acquired and liabilities assumed were recorded at fair value as of the acquisition date. The determination of fair value requires management to make estimates related to discount rates, expected future cash flows, market conditions and other future events that are highly subjective in nature and subject to change. Fair value estimates related to the assets and liabilities from Veritex are subject to adjustment for up to one year after the closing date of the acquisition as additional information becomes available. As of June 30, 2026, management completed its review of information related to events or circumstances existing as of the acquisition date.

Allocation of Purchase Consideration

The following table provides the allocation of the purchase consideration to the assets acquired and liabilities assumed from Veritex as of October 20, 2025.

<i>(dollar amounts in millions)</i>	Fair Value
Purchase consideration	
Fair value of common stock issued	\$ 1,659
Fair value of equity-based awards	23
Cash	2

Total assets acquired	12,026
Liabilities assumed	
Deposits	10,516
Long-term debt	159
Other liabilities	117
Total liabilities assumed	10,792
Fair value of net assets acquired	1,234
Goodwill	\$ 450

Table of Contents

In connection with the Veritex acquisition, Huntington recorded goodwill of \$450 million, none of which is anticipated to be deductible for tax purposes. The goodwill is primarily attributable to synergies, operational efficiencies, and other factors expected to arise from the transaction. See Note 8 - "Goodwill and Other Intangible Assets" to the Consolidated Financial Statements appearing in Huntington's 2025 Annual Report on Form 10-K for information regarding the allocation of goodwill to the Company's reportable segments as a result of the acquisition, as well as the carrying amounts and amortization of core deposit and other intangible assets.

See Note 3 - "Business Combinations" to the Consolidated Financial Statements appearing in Huntington's 2025 Annual Report on Form 10-K for descriptions of the methods used to determine the fair values of significant assets acquired and liabilities assumed in the Veritex acquisition.

Cadence Acquisition

On February 1, 2026, Huntington completed the acquisition of Cadence Bank ("Cadence"), a regional bank headquartered in Houston, Texas and Tupelo, Mississippi, pursuant to an agreement by and among Huntington, Huntington National Bank, and Cadence, whereby Cadence merged with and into Huntington National Bank, with Huntington National Bank as the surviving bank ("Cadence Merger Agreement").

Under the terms of the Cadence Merger Agreement, Huntington issued 2.475 shares of common stock for each outstanding common share of Cadence in a 100% stock transaction, with cash paid in lieu of fractional shares. In addition, each outstanding share of 5.50% Series A Non-Cumulative Perpetual Preferred Stock of Cadence was converted into the right to receive one depositary share representing 1/1000 of a share of a newly created 5.50% Series L Non-Cumulative Perpetual Preferred Stock of Huntington. Upon completion of the merger, Huntington issued 462 million shares of its common stock to Cadence shareholders of record as of the merger date, in addition to the conversion of certain Cadence equity awards into Huntington equity awards and the issuance of the depositary shares representing the newly created Series L Preferred Stock, resulting in total consideration from the transaction of \$8.3 billion based on the closing price of Huntington's common stock on January 30, 2026.

The acquisition of Cadence constituted a business combination in accordance with ASC Topic 805, Business Combinations. Accordingly, the assets acquired and liabilities assumed were recorded at fair value as of the acquisition date. The determination of fair value requires management to make estimates related to discount rates,

expected future cash flows, market conditions and other future events that are highly subjective in nature and subject to change. Fair value estimates related to the assets and liabilities from Cadence are subject to adjustment for up to one year after the closing date of the acquisition as additional information becomes available. The purchase consideration allocation is considered preliminary as certain estimates related to the assets acquired and liabilities assumed are subject to continuing refinement. Valuations subject to refinement include, but are not limited to, loans, certain other assets, and the core deposit intangible asset.

[Table of Contents](#)

Preliminary Allocation of Purchase Consideration

The following table provides the preliminary allocation of the purchase consideration to the assets acquired and liabilities assumed from Cadence as of February 1, 2026.

<i>(dollar amounts in millions)</i>	Fair Value
Purchase consideration	
Fair value of common stock issued	\$ 8,068
Fair value of equity-based awards	117
Fair value of preferred stock issued	150
Total consideration	8,335
Assets acquired	
Cash and due from banks	490
Interest-earning deposits with banks	1,368
Available-for-sale securities	8,964
Other securities	259
Loans held for sale	151
Loans and leases	36,912
Allowance for loan and lease losses	(567)
Net loans and leases	36,345
Bank-owned life insurance	768
Premises and equipment	738
Servicing rights and other intangible assets	1,005
Other assets	1,258
Total assets acquired	51,346
Liabilities assumed	
Deposits	43,530
Short-term borrowings	1,553
Long-term debt	945
Other liabilities	480
Total liabilities assumed	46,508
Preliminary fair value of net assets acquired	4,838
Preliminary goodwill	\$ 3,497

In connection with the Cadence acquisition, Huntington recorded preliminary goodwill of \$3.5 billion, none of which is anticipated to be deductible for tax purposes. The preliminary goodwill is primarily attributable to synergies, operational efficiencies, and other factors expected to arise from the transaction. Information regarding the allocation of goodwill to the Company's reportable segments as a result of the acquisition, as well as the carrying amounts of core deposit and other intangible assets, are provided in Note 8 - ["Goodwill and Other Intangible Assets"](#) of the Notes to Unaudited Consolidated Financial Statements.

The following is a description of the methods used to determine the fair values of significant assets acquired and liabilities assumed.

Cash and due from banks and interest-earning deposits with banks: The carrying amount of these assets was a reasonable estimate of fair value based on the short-term nature of these assets.

Securities: Fair values for securities were based on quoted market prices or recent transactions, where available. If quoted market prices were not available, fair value estimates were based on observable inputs including quoted market prices for similar instruments, quoted market prices that were not in an active market or other inputs that were observable in the market. In the absence of observable inputs, fair value was estimated based on pricing models and/or discounted cash flow methodologies.

[Table of Contents](#)

Loans and leases: Fair values for loans and leases were based on a discounted cash flow methodology that considered factors including the type of loan and lease and related collateral, classification status, fixed or variable interest rate, term, amortization status and current discount rates. Loans and leases were grouped together according to similar characteristics when applying various valuation techniques. The discount rates used for loans and leases were based on current market rates for new originations of comparable loans and leases and include adjustments for liquidity. The discount rate does not include a factor for credit losses as that has been included as a reduction to the estimated cash flows. Purchased loans and leases that reflect a more-than-insignificant deterioration of credit from origination are considered PCD. For PCD loans and leases, the initial estimate of expected credit losses is recognized in the ALLL on the date of acquisition using the same methodology as other loans and leases held-for-investment. In addition, Huntington adopted ASU 2025-08 in the fourth quarter of 2025. Accordingly, the initial estimate of expected credit losses recognized in the ALLL included both PCD and non-PCD loans which were deemed purchased seasoned loans.

The following table includes the fair value and unpaid principal balance of the acquired loans and leases.

<i>(dollar amounts in millions)</i>	Unpaid principal balance	Premium/ (discount)	Loans and leases	Allowance for loan losses	Net loans and leases
Non-PCD loans	\$ 31,879	\$ (390)	\$ 31,489	\$ (245)	\$ 31,244
PCD loans	5,614	(191)	5,423	(322)	5,101
Total	\$ 37,493	\$ (581)	\$ 36,912	\$ (567)	\$ 36,345

CDI: Huntington recorded a CDI of \$855 million as of the acquisition date, which represents the low cost of funding that acquired core deposits provide relative to the Company's marginal cost of funds. The fair value was estimated based on a discounted cash flow methodology that gave appropriate consideration to expected customer attrition rates, net maintenance cost of the deposit base, alternative cost of funds, and the interest costs associated with customer deposits. The CDI is being amortized over 10 years based upon the period over which estimated economic benefits are expected to be received.

Deposits: The fair values used for the demand and savings deposits by definition equal the amount payable on demand at the acquisition date. The fair values for time deposits were estimated using a discounted cash flow calculation that applies interest rates currently being offered to the contractual interest rates on such time deposits.

[Table of Contents](#)
Pro Forma Financial Information (Unaudited)

Huntington's operating results for the three and nine months ended September 30, 2026 include the operating results of the acquired assets and assumed liabilities of Veritex subsequent to the acquisition on October 20, 2025 and Cadence subsequent to the acquisition on February 1, 2026. Due to the streamlining and integration of certain operating activities into those of Huntington post-acquisition, historical reporting for the former Veritex and Cadence operations is impracticable, and thus disclosures of the revenue from the assets acquired and income before income taxes are impracticable for the periods subsequent to the acquisitions.

The following table presents unaudited pro forma combined information as if the acquisitions of Veritex and Cadence had occurred on January 1, 2025 under the "Unaudited Pro Forma Combined Results" columns. The pro forma adjustments give effect to any change in interest income due to the accretion of the net discount associated with the fair value adjustments to acquired loans and leases, any change in interest expense due to estimated premium amortization/discount accretion associated with the fair value adjustments to acquired interest-bearing deposits and long-term debt, and the amortization of the CDI that would have resulted had the deposits been acquired as of January 1, 2025. Pro forma combined results for the three and nine months ended September 30, 2026 include \$117 million and \$590 million, respectively, of acquisition-related expenses attributable to the acquisitions, which primarily included, but were not limited to, severance costs, professional services, and data processing fees. Pro forma combined results also include adjustments for the elimination of Veritex's and Cadence's intangible amortization expense and Cadence's interest income and interest expense related to premium amortization/discount accretion from prior acquisitions, and the related income tax effects. The pro forma information does not necessarily reflect the results of operations that would have occurred had Huntington acquired Veritex and Cadence on January 1, 2025. Furthermore, cost savings and other business synergies related to the acquisition are not reflected in the pro forma combined amounts.

(dollar amounts in millions)	Unaudited Pro Forma Combined Results			
	Three months ended		Nine months ended	
	September 30, 2026	September 30, 2025	September 30, 2026	September 30, 2025

4. INVESTMENT AND OTHER SECURITIES

Debt securities are classified as held-to-maturity when Huntington has the intent and ability to hold the securities to their maturity. All other debt and equity securities are classified as either available-for-sale or other securities. The following tables provide amortized cost, fair value, and gross unrealized gains and losses by investment category.

(dollar amounts in millions)	Amortized Cost ⁽¹⁾⁽²⁾	Gross Gains	Gross Losses	Fair Value
At September 30, 2026				
Available-for-sale securities:				
U.S. Treasury	\$ 8,554	\$ —	\$ (100)	\$ 8,454
Federal agencies:				
Residential MBS	14,004	3	(1,891)	12,116

Other securities/sovereign debt	10	—	—	10
Total available-for-sale securities	\$ 38,169	\$ 5	\$ (3,551)	\$ 34,623
Held-to-maturity securities:				
U.S. Treasury	\$ 2,369	\$ —	\$ (29)	\$ 2,340
Federal agencies:				

Residential MBS	7,497	Unrealized	(1,318)	6,179
Residential CMO	3,629	—	(684)	2,945
Commercial MBS	1,204	—	(233)	971
Other agencies	33	—	(3)	30
Total U.S. Treasury, federal agency, and other agency securities	14,732	—	(2,267)	12,465
Municipal securities	1	—	—	1
Total held-to-maturity securities	\$ 14,733	\$ —	\$ (2,267)	\$ 12,466

Other securities, at cost:

Non-marketable equity securities:

FRB stock	\$ 884	\$ —	\$ —	\$ 884
FHLB stock	426	—	—	426
Other non-marketable equity securities	61	—	—	61

Other securities, at fair value:

Mutual funds	28	—	—	28
Equity securities	34	2	(2)	34
Total other securities	\$ 1,433	\$ 2	\$ (2)	\$ 1,433

(1) Amortized cost amounts exclude accrued interest receivable, which is recorded within accrued income and other receivables on the Unaudited Consolidated Balance Sheets. At September 30, 2026, accrued interest receivable on AFS securities and HTM securities totaled \$156 million and \$40 million, respectively.

(2) Excluded from the amortized cost are portfolio level basis adjustments for securities designated in fair value hedges under the portfolio layer method. The basis adjustments totaled \$515 million and represent a reduction to the amortized cost of the securities being hedged. The securities being hedged under the portfolio layer method are primarily Residential CMO and Residential MBS securities.

Other securities, at fair value:				
Mutual funds	30	—	—	30
Equity securities	12	—	—	12
Total other securities	\$ 994	\$ —	\$ —	\$ 994

(1) Amortized cost amounts exclude accrued interest receivable, which is recorded within accrued income and other receivables on the Unaudited Consolidated Balance Sheets. At December 31, 2025, accrued interest receivable on AFS securities and HTM securities totaled \$106 million and \$44 million, respectively.

(2) Excluded from the amortized cost are portfolio level basis adjustments for securities designated in fair value hedges under the portfolio layer method. The basis adjustments totaled \$177 million and represent a reduction to the amortized cost of the securities being hedged. The securities being hedged under the portfolio layer method are primarily Residential CMO and Residential MBS securities.

At September 30, 2026, substantially all HTM debt securities were comprised of securities issued by government-sponsored entities or were explicitly guaranteed by the U.S. government. In addition, there were no HTM debt securities considered past due at September 30, 2026. Based on an evaluation of available information as of September 30, 2026, including security type, counterparty credit quality, past events, current conditions, and reasonable and supportable forecasts that are relevant to collectability of cash flows, Huntington does not expect to incur credit losses on any security held in its AFS and HTM debt securities portfolio. There was no allowance related to securities as of September 30, 2026 or December 31, 2025.

The carrying value of investment securities pledged to secure public and trust deposits, trading account liabilities, U.S. Treasury demand notes, and security repurchase agreements, and to support borrowing capacity, totaled \$37.7 billion at September 30, 2026 and \$29.7 billion at December 31, 2025.

5. LOANS AND LEASES

The following table provides a detailed listing of Huntington's loan and lease portfolio.

<i>(dollar amounts in millions)</i>	At September 30, 2026	At December 31, 2025
Commercial loan and lease portfolio:		
Commercial and industrial	\$ 93,966	\$ 69,442
Commercial real estate	22,748	15,209
Lease financing	5,885	5,727
Total commercial loan and lease portfolio	122,599	90,378
Consumer loan portfolio:		
Residential mortgage	33,163	24,777
Automobile	15,355	16,168
Home equity	11,898	10,395
RV and marine	5,757	5,682
Other consumer	2,677	2,242
Total consumer loan portfolio	68,850	59,264
Total loans and leases ⁽¹⁾⁽²⁾	191,449	149,642
Allowance for loan and lease losses	(3,222)	(2,537)
Net loans and leases	\$ 188,227	\$ 147,105

(1) Loans and leases are reported at principal amount outstanding, including unamortized purchase premiums and discounts, unearned income, and net direct fees and costs associated with originating and acquiring loans and leases. The aggregate amount of these loan and lease adjustments was a net discount of \$1.5 billion and \$815 million at September 30, 2026 and December 31, 2025, respectively.

(2) The total amount of accrued interest recorded for loans and leases at September 30, 2026 was \$472 million for the commercial loan and lease portfolio and \$301 million for the consumer loan portfolio, and at December 31, 2025 was \$358 million for the commercial loan and lease portfolio and \$253 million for the consumer loan portfolio. Accrued interest is presented in accrued income and other receivables within the Unaudited Consolidated Balance Sheet s.

Lease Financing

The following table presents net investments in lease financing receivables by category.

<i>(dollar amounts in millions)</i>	At September 30, 2026	At December 31, 2025
Lease payments receivable	\$ 5,483	\$ 5,379
Estimated residual value of leased assets	1,081	1,011
Gross investment in lease financing receivables	6,564	6,390
Deferred origination costs	62	58
Deferred fees, unearned income, and other	(741)	(721)
Total lease financing receivables	\$ 5,885	\$ 5,727

The carrying value of residual values guaranteed was \$381 million and \$419 million as of September 30, 2026 and December 31, 2025, respectively. The future lease rental payments due from customers on direct financing leases at September 30, 2026 totaled \$5.5 billion and were due as follows: \$883 million in 2026, \$1.1 billion in 2027, \$985 million in 2028, \$896 million in 2029, \$677 million in 2030, and \$981 million thereafter. Interest income recognized for these types of leases was \$97 million and \$93 million for the three-month periods ended September 30, 2026 and 2025, respectively, and \$295 million and \$274 million for the nine-month periods ended September 30, 2026 and 2025, respectively.

(1) NALs are included in this aging analysis based on the loan's past due status.

(2) Amounts include SBA loans and leases.

(3) Amounts include mortgage loans insured by U.S. government agencies.

Credit Quality Indicators

Huntington assesses the risk in the loan portfolio by utilizing numerous risk characteristics. See Note 5 - "Loans and Leases" to the Consolidated Financial Statements appearing in Huntington's 2025 Annual Report on Form 10-K for a description of the credit quality indicators Huntington utilizes for monitoring credit quality and for determining

an appropriate ACL level.

Modifications to Debtors Experiencing Financial Difficulty

See Note 5 - "Loans and Leases" to the Consolidated Financial Statements appearing in Huntington's 2025 Annual Report on Form 10-K for a description of reported modification types and the impact on credit quality of borrowers experiencing financial difficulty.

The following table summarizes the amortized cost basis of loans modified during the reporting period to borrowers experiencing financial difficulty, disaggregated by class of financing receivable and type of modification.

<i>(dollar amounts in millions)</i>	Interest rate reduction	Term extension	Payment deferral	Combo - interest rate reduction and term extension	Total	% of total loan class ⁽¹⁾

Table of Contents

The performance of loans made to borrowers experiencing financial difficulty to which modifications were made is closely monitored to understand the effectiveness of modification efforts. Loans are considered to be in payment default at 90 or more days past due. The following table depicts the performance of loans that have been modified during the identified period.

Pledged Loans

The Bank has access to secured borrowings from the Federal Reserve's discount window and advances from the FHLB. As of September 30, 2026 and December 31, 2025, loans and leases totaling \$146.3 billion and \$114.2 billion, respectively, were pledged to the FRB and FHLB for access to these contingent funding sources.

ACL balance, end of period	\$	1,693	\$	869	\$	2,562
(1) Includes charge-offs of \$23 million on certain commercial loans previously charged off by Cadence, which were written up to the unpaid principal balance at acquisition and then immediately charged off by Huntington as required by purchase accounting.						

Table of Contents

At September 30, 2026, the ACL was \$3.4 billion, a \$615 million increase compared to December 31, 2025. The increase in the ACL was driven by the ACL recorded for loans acquired in the Cadence transaction in addition to organic loan and lease growth. The ACL coverage ratio at September 30, 2026 is reflective of the current macroeconomic forecast and changes in various risk profiles intended to capture uncertainty not addressed within the quantitative reserve.

The commercial ACL was \$2.5 billion at September 30, 2026, a \$580 million increase compared to December 31, 2025, with the increase driven by \$438 million of ALLL recorded for commercial loans acquired in the Cadence transaction, as well as organic growth in commercial loans during the first nine months of 2026, partially offset by a lower ACL coverage ratio. The consumer ACL was \$902 million at September 30, 2026, an increase of \$35 million from December 31, 2025, with the increase due primarily to \$129 million of ALLL recorded for consumer loans acquired in the Cadence transaction, partially offset by a lower ACL coverage ratio on consumer loans.

The baseline economic forecast used as part of estimating the ACL at September 30, 2026 reflected a modest softening in the labor market and slowing economic growth. Under this scenario, the unemployment rate is expected to gradually increase over the next year to 4.7%, while GDP growth is expected to moderate through the remainder of 2026, not exceeding 2% until the fourth quarter of 2027. These economic expectations, together with portfolio-specific performance trends and other qualitative factors, were incorporated into the Company's estimate of expected credit losses.

The economic scenarios used included elevated levels of economic uncertainty including the impact of specific challenges in the commercial real estate industry, recent inflation levels, the U.S. labor market, expected interest rate changes by the Federal Reserve, and the impact of significant conflicts on-going around the world. Given the uncertainty associated with key economic scenario assumptions, the September 30, 2026 ACL included a general reserve that consists of various risk profile components to address uncertainty not measured within the quantitative transaction reserve.

7. MORTGAGE LOAN SALES AND SERVICING RIGHTS

Residential Mortgage Portfolio

The following table summarizes activity relating to residential mortgage loans sold with servicing retained.

	Three Months Ended		Nine Months Ended	
	September 30, 2026	September 30, 2025	September 30, 2026	September 30, 2025
<i>(dollar amounts in millions)</i>

(2) Represents decrease in value associated with loans that paid off during the period.				
(3) Represents change in value resulting primarily from market-driven changes in interest rates.				

Table of Contents

The following table summarizes key assumptions and the sensitivity of the MSR value to changes in these assumptions.

	At September 30, 2026			At December 31, 2025		
		Decline in fair value due to			Decline in fair value due to	
	Actual	10% adverse change	20% adverse change	Actual	10% adverse change	20% adverse change
(dollar amounts in millions)						
Constant prepayment rate (annualized)	6.61 %	\$ (19)	\$ (37)	8.09 %	\$ (17)	\$ (33)
Spread over forward interest rate swap rates	543 bps	(19)	(38)	538 bps	(14)	(27)

8. GOODWILL AND OTHER INTANGIBLE ASSETS

In conjunction with the Cadence acquisition, Huntington recorded \$3.5 billion of goodwill and \$855 million of core deposit intangible assets, which is included in servicing rights and other intangible assets on the Unaudited Consolidated Balance Sheets. For additional information on the Cadence acquisition, see Note 3 - "Business Combinations" of the Notes to Unaudited Consolidated Financial Statements.

A rollforward of goodwill by business segment for which goodwill is allocated is presented in the table below.

(dollar amounts in millions)	Consumer & Regional Banking	Commercial Banking	Huntington Consolidated
Balance, December 31, 2025	\$ 3,855	\$ 2,142	\$ 5,997
Cadence acquisition ⁽¹⁾	2,597	900	3,497
Other activity	—	33	33
Balance, September 30, 2026	\$ 6,452	\$ 3,075	\$ 9,527

(1) On February 1, 2026, Huntington completed the acquisition of Cadence. Fair value estimates related to the acquired assets and liabilities are subject to adjustment during the one-year measurement period following the closing of the acquisition.

Excluding fully amortized intangible assets, Huntington's other intangible assets consisted of the following.

(dollar amounts in millions)	Gross Carrying Amount	Accumulated Amortization	Net Carrying Value
At September 30, 2026			
Core deposit intangible	\$ 1,041	\$ (188)	\$ 853
Other intangible assets	76	(63)	13
Total other intangible assets	\$ 1,117	\$ (251)	\$ 866
At December 31, 2025			
Core deposit intangible	\$ 473	\$ (335)	\$ 138
Other intangible assets	66	(59)	7
Total other intangible assets	\$ 539	\$ (394)	\$ 145

9. BORROWINGS

Borrowings with original maturities of one year or less are classified as short-term and were comprised of the following.

(dollar amounts in millions)	At September 30, 2026	At December 31, 2025
Securities sold under agreements to repurchase	\$ —	\$ 22
FHLB advances	5,500	1,000
Other borrowings	566	239
Total short-term borrowings	\$ 6,066	\$ 1,261

The carrying value of assets pledged as collateral against repurchase agreements totaled \$40 million as of December 31, 2025. There were no assets pledged as collateral against repurchase agreements as of September 30, 2026. Assets pledged as collateral are reported in available-for-sale securities and held-to-maturity securities on the Unaudited Consolidated Balance Sheets. The repurchase agreements have maturities within 60 days. No amounts have been offset against the agreements.

Table of Contents

The following table summarizes the composition of Huntington's long-term debt.

The Parent Company:

Senior Notes	\$ 6,272	\$ 5,514
Subordinated Notes	2,028	1,510
Total notes issued by the Parent Company	8,300	7,024

The Bank:

Senior Notes	3,155	3,192
--------------	-------	-------

(Subordinated Notes)	At September 30, 2026	At December 31, 2025
Total notes issued by the Bank	2,238	2,238
FHLB Advances	3,149	4,514
Credit linked notes ⁽¹⁾	1,561	1,161
Auto loan securitization trust ⁽²⁾	252	600
Other	586	497
Total long-term debt	\$ 17,341	\$ 17,221

(1) As of September 30, 2026, the weighted average contractual interest rate on the CLNs was 5.87%. Huntington has elected the fair value option for these notes. To the extent losses exceed certain thresholds, the principal and interest payable on the notes may be reduced by a portion of the Company's aggregate net losses on the reference pool of loans, with losses allocated to note classes in reverse order of payment priority.

(2) Represents secured borrowings collateralized by auto loans with a weighted average rate of 5.20% due through 2029. See Note 16 - "Variable Interest Entities" for additional information.

During the third quarter of 2026, the Bank completed a CLN transaction whereby it issued \$483 million of unsecured credit linked notes to third-party investors. There are six classes of notes, each maturing in August 2048. Five note classes bear interest at fixed rates that range from 5.612% to 11.879% (weighted average of 6.69%) and the remaining note class bears interest at a floating rate equal to SOFR plus a spread rate of 1.35%. These notes transfer a portion of the risk of losses to third-party investors on an initial \$4.6 billion reference pool of Huntington's RV and marine secured loans.

During the first quarter of 2026, Huntington issued \$1.0 billion of fixed-to-floating rate senior and \$750 million of fixed-rate subordinated notes. The fixed-to-floating senior notes are due January 28, 2032 and bear an initial fixed interest rate of 4.623%. Commencing January 28, 2031, the interest rate will reset to a floating rate equal to a benchmark rate based on the Compounded SOFR Index Rate plus 99 basis points. The fixed-rate subordinated notes are due January 28, 2041 and bear interest at 5.605%.

During the first quarter of 2026, the Bank completed a CLN transaction whereby it issued \$410 million of unsecured credit linked notes to third-party investors. There are four classes of notes, each maturing in February 2034. One note class bears interest at a fixed rate of 4.550% and the remaining three note classes bear interest at a floating rate equal to SOFR plus a spread rate that ranges from 1.00% to 8.65% (weighted average spread of 4.15%). These notes transfer a portion of the risk of losses to third-party investors on an initial \$3.5 billion reference pool of Huntington's automobile secured loans.

(1) AOCI amounts at September 30, 2026 and September 30, 2025 include \$39 million and \$45 million, respectively, of net unrealized losses (after-tax) on securities previously transferred from the AFS securities portfolio to the HTM securities portfolio. The net unrealized losses will be recognized in earnings over the remaining life of the security using the effective interest method.

Total		\$ 41		\$ 27		\$ 123		\$ 81

(1) Series K was issued during the third quarter of 2025, with the first dividend declaration for the Series K occurring in the fourth quarter of 2025.

(2) Series L was issued during the first quarter of 2026, with the first dividend declaration for the Series L occurring in the first quarter of 2026.

[Table of Contents](#)

12. EARNINGS PER SHARE

Basic earnings per share is the amount of earnings (adjusted for preferred stock dividends and the impact of preferred stock repurchases and redemptions) available to each share of common stock outstanding during the reporting period. Diluted earnings per share is the amount of earnings available to each share of common stock outstanding during the reporting period adjusted to include the effect of potentially dilutive common shares. Potentially dilutive common shares include incremental shares issued for stock options, restricted stock units and awards, performance share units, and shares held in deferred compensation plans. Potentially dilutive common shares are excluded from the computation of diluted earnings per share in periods in which the effect would be antidilutive.

The following table shows the calculation of basic and diluted earnings per share.

	Three Months Ended		Nine Months Ended	
	September 30, 2026	September 30, 2025	September 30, 2026	September 30, 2025
<i>(dollar amounts in millions, except per share data, share count in thousands)</i>				
Basic earnings per common share:				
Net income attributable to Huntington	\$ 721	\$ 629	\$ 1,971	\$ 1,692
Dividends on preferred shares	41	27	123	81
Net income available to common shareholders	\$ 680	\$ 602	\$ 1,848	\$ 1,611
Average common shares issued and outstanding	2,019,285	1,459,129	1,970,567	1,456,979
Basic earnings per common share	\$ 0.34	\$ 0.41	\$ 0.94	\$ 1.11
Diluted earnings per common share:				
Average dilutive potential common shares:				
Stock options, restricted stock units and awards, and performance share units	20,626	18,491	21,759	18,662
Shares held in deferred compensation plans	6,962	6,967	7,114	7,036
Average dilutive potential common shares	27,588	25,458	28,873	25,698
Total diluted average common shares issued and outstanding	2,046,873	1,484,587	1,999,440	1,482,677
Diluted earnings per common share	\$ 0.33	\$ 0.41	\$ 0.92	\$ 1.09
Anti-dilutive awards ⁽¹⁾	238	230	278	1,693

(1) Reflects the total number of shares related to outstanding options that have been excluded from the computation of diluted earnings per share because the impact would have been anti-dilutive.

[Table of Contents](#)

13. REVENUE FROM CONTRACTS WITH CUSTOMERS

Revenue is segregated based on the nature of the product and services offered as part of contractual arrangements. Certain sources of revenue are recognized within interest or fee income and are outside of the scope of ASC Topic 606, Revenue from Contracts with Customers ("ASC 606"). Other sources of revenue fall within the scope of the ASC 606 and are generally recognized within noninterest income. The following table presents total noninterest income disaggregated by operating segment and segregated between revenue with contracts with customers within the scope of ASC 606 and revenue within the scope of other GAAP topics.

<i>(dollar amounts in millions)</i>				
Major Revenue Streams	Consumer & Regional Banking	Commercial Banking	Treasury / Other	Huntington Consolidated

2026 3Q Form 10-Q 73

[Table of Contents](#)

Huntington generally provides services for customers in which it acts as principal. Payment terms and conditions vary amongst services and customers and thus impact the timing and amount of revenue recognition. Some fees may be paid before any service is rendered and accordingly, such fees are deferred until the obligations pertaining to those fees are satisfied. Most Huntington contracts with customers are cancelable by either party without penalty or they are short-term in nature, with a contract duration of less than one year. Accordingly, most revenue deferred for the reporting period ended September 30, 2026 is expected to be earned within one year. Huntington does not have significant balances of contract assets or contract liabilities, and any change in those balances during the reporting period ended September 30, 2026 was determined to be immaterial.

14. FAIR VALUES OF ASSETS AND LIABILITIES

See Note 19 - "Fair Value of Assets and Liabilities" to the Consolidated Financial Statements appearing in Huntington's 2025 Annual Report on Form 10-K for a description of the valuation methodologies used for instruments measured at fair value. Assets and liabilities measured at fair value rarely transfer between Level 1 and Level 2 measurements. There were no such transfers during the three-month and nine-month periods ended September 30, 2026 and 2025.

Assets and Liabilities measured at fair value on a recurring basis

The following tables present our assets and liabilities measured at fair value on a recurring basis, including instruments where we have elected the fair value option.

(1) Amounts represent the impact of legally enforceable master netting agreements that allow the Company to settle positive and negative positions and cash collateral held or placed with the same counterparties.

The following table presents a rollforward of the balance sheet amounts measured at fair value on a recurring basis and classified as Level 3. The classification of an item as Level 3 is based on the significance of the unobservable inputs to the overall fair value measurement. However, Level 3 measurements may also include observable components of value that can be validated externally. Accordingly, the gains and losses in the table below include changes in fair value due in part to observable factors that are part of the valuation methodology.

Assets and Liabilities measured at fair value on a nonrecurring basis

Certain assets and liabilities may be required to be measured at fair value on a nonrecurring basis in periods subsequent to their initial recognition. These assets and liabilities are not measured at fair value on an ongoing basis; however, they are subject to fair value adjustments in certain circumstances, for example, when there is evidence of impairment. The gains (losses) represent the amounts recorded during the period regardless of whether the asset is still held at period end.

The amounts measured at fair value on a nonrecurring basis were as follows.

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3)		Total Losses			
	At September 30, 2026	At December 31, 2025	Three Months Ended September 30, 2026	Three Months Ended September 30, 2025	Nine Months Ended September 30, 2026	Nine Months Ended September 30, 2025
<i>(dollar amounts in millions)</i>						
Collateral-dependent loans	\$ 39	\$ 74	\$ (39)	\$ (14)	\$ (128)	\$ (57)

Huntington records nonrecurring adjustments of collateral-dependent loans held for investment. Such amounts are generally based on the fair value of the underlying collateral supporting the loan. Appraisals are generally obtained to support the fair value of the collateral and incorporate measures such as recent sales prices for comparable properties and cost of construction. Periodically, in cases where the carrying value exceeds the fair value of the collateral less cost to sell, an impairment charge is recognized in the form of a charge-off.

[Table of Contents](#)
Significant unobservable inputs for assets and liabilities measured at fair value

The following table presents quantitative information about the significant unobservable inputs for assets and liabilities measured at fair value.

Quantitative Information about Level 3 Fair Value Measurements ⁽¹⁾						
<i>(dollar amounts in millions)</i>	Valuation Technique	Significant Unobservable Input	At September 30, 2026		At December 31, 2025	
			Range	Weighted Average	Range	Weighted Average
Measured at fair value on a recurring basis:						
MSRs	Discounted cash flow	Constant prepayment rate	6 % - 22 %	7 %	6 % - 61 %	8 %
		Spread over forward interest rate swap rates	5 % - 11 %	5 %	5 % - 11 %	5 %
Municipal securities	Discounted cash flow	Discount rate	4 % - 6 %	5 %	4 % - 4 %	4 %
		Cumulative default	— % - 64 %	3 %	— % - 64 %	3 %
		Loss given default ⁽²⁾		20 %		20 %

(1) Certain disclosures related to quantitative level 3 fair value measurements do not include those deemed to be immaterial.

(2) The range is not meaningful for this unobservable input.

The following provides a general description of the impact of a change in an unobservable input on the fair value measurement and the interrelationship between unobservable inputs, where relevant/significant. Interrelationships may also exist between observable and unobservable inputs.

Components of credit loss estimates including probability of default, constant default, cumulative default, loss given default, cure given deferral, and loss severity, are driven by the ability of the borrowers to pay their loans and the value of the underlying collateral and are impacted by changes in macroeconomic conditions, typically increasing when economic conditions worsen and decreasing when conditions improve. An increase in the estimated prepayment rate typically results in a decrease in estimated credit losses and vice versa. Higher credit loss estimates generally result in lower fair values. Credit spreads generally increase when liquidity risks and market volatility increase and decrease when liquidity conditions and market volatility improve.

Discount rates and spread over forward interest rate swap rates typically increase when market interest rates increase and/or credit and liquidity risks increase and decrease when market interest rates decline and/or credit and liquidity conditions improve. Higher discount rates and credit spreads generally result in lower fair market values.

Fair values of financial instruments

Many of the assets and liabilities subject to the disclosure requirements are not actively traded, requiring fair values to be estimated by management. These estimations necessarily involve the use of judgment about a wide variety of factors, including, but not limited to, relevancy of market prices of comparable instruments, expected future cash flows, and appropriate discount rates.

The short-term nature of certain assets and liabilities result in their carrying value approximating fair value. These include trading account assets, customers' acceptance liabilities, short-term borrowings, bank acceptances outstanding, and cash and short-term assets, which include cash and due from banks and interest-earning deposits with banks. Loan commitments and letters-of-credit generally have short-term, variable-rate features and contain clauses that limit Huntington's exposure to changes in customer credit quality. Accordingly, their carrying values, which are immaterial at the respective balance sheet dates, are reasonable estimates of fair value.

Certain assets, the most significant being operating lease assets, bank-owned life insurance, and premises and equipment, do not meet the definition of a financial instrument and are excluded from this disclosure. Similarly, mortgage servicing rights and relationship intangibles are not considered financial instruments and are not included in the following tables. Accordingly, this fair value information is not intended to, and does not, represent Huntington's underlying value.

[Table of Contents](#)

The following table provides the carrying amounts and estimated fair values of Huntington's financial instruments.

At September 30, 2026

Huntington engages in balance sheet hedging activity, principally for asset and liability management purposes. Balance sheet hedging activity is generally arranged to receive hedge accounting treatment that can be classified as either fair value or cash flow hedges. Fair value hedges are executed to hedge changes in fair value of outstanding fixed-rate debt and investment securities caused by fluctuations in market interest rates. Cash flow hedges are executed to modify interest rate characteristics of designated commercial loans in order to reduce the impact of changes in future cash flows due to market interest rate changes.

Table of Contents

The following table presents the gross notional values of derivatives used in Huntington's asset and liability management activities at September 30, 2026 and December 31, 2025, identified by the underlying interest rate-sensitive instruments.

<i>(dollar amounts in millions)</i>	Fair Value Hedges	Cash Flow Hedges	Economic Hedges	Total
At September 30, 2026				
Instruments associated with:				
Investment securities	\$ 5,622	\$ —	\$ —	\$ 5,622
Loans	—	24,825	28	24,853
Long-term debt	11,399	—	—	11,399
Total notional value	<u>\$ 17,021</u>	<u>\$ 24,825</u>	<u>\$ 28</u>	<u>\$ 41,874</u>
At December 31, 2025				
Instruments associated with:				
Investment securities	\$ 5,147	\$ —	\$ —	\$ 5,147
Loans	—	28,250	28	28,278
Long-term debt	10,599	—	—	10,599
Total notional value	<u>\$ 15,746</u>	<u>\$ 28,250</u>	<u>\$ 28</u>	<u>\$ 44,024</u>

These derivative financial instruments were entered into for the purpose of managing the interest rate risk of assets and liabilities. Net amounts receivable or payable on contracts hedging either interest-earning assets or interest-bearing liabilities were accrued as an adjustment to either interest income or interest expense. Adjustments to interest income were also recorded for the amounts related to the amortization of premiums for floors that were not included in the measurement of hedge effectiveness, as well as the amounts related to terminated hedges reclassified from AOCI. The net amounts resulted in decreases to net interest income of \$21 million and \$38 million for the three-month periods ended September 30, 2026, and 2025, respectively, and decreases to net interest income of \$54 million and \$63 million for the nine-month periods ended September 30, 2026, and 2025, respectively.

Fair Value Hedges

The changes in fair value of the fair value hedges are recorded through earnings and offset against changes in the fair value of the hedged item.

Huntington has designated \$5.6 billion of interest rate swaps as fair value hedges of fixed-rate investment securities using the portfolio layer method. This approach allows the Company to designate as the hedged item a stated amount of the assets that are not expected to be affected by prepayments, defaults, or other factors affecting the timing and amount of cash flows. The fair value portfolio level basis adjustment on our hedged MBS portfolio has not been attributed to the individual AFS securities in our Unaudited Consolidated Balance Sheets.

The following table presents the change in fair value for derivatives designated as fair value hedges as well as the offsetting change in fair value on the hedged item.

<i>(dollar amounts in millions)</i>	Three Months Ended		Nine Months Ended	
	September 30, 2026	September 30, 2025	September 30, 2026	September 30, 2025
Interest rate contracts				
Change in fair value of interest rate swaps hedging investment securities ⁽¹⁾	\$ 293	\$ (40)	\$ 342	\$ (302)
Change in fair value of hedged investment securities ⁽¹⁾	(293)	38	(338)	299
Change in fair value of interest rate swaps hedging long-term debt ⁽²⁾	(218)	16	(391)	231
Change in fair value of hedged long-term debt ⁽²⁾	218	(16)	392	(231)

(1) Recognized in Interest income—available-for-sale securities—taxable in the [Unaudited Consolidated Statements of Income](#).

(2) Recognized in Interest expense—long-term debt in the [Unaudited Consolidated Statements of Income](#).

Table of Contents

The following amounts were recorded on the balance sheet related to cumulative basis adjustments for fair value hedges.

<i>(dollar amounts in millions)</i>	Amortized Cost		Cumulative Amount of Fair Value Hedging Adjustment To Hedged Items	
	At September 30, 2026	At December 31, 2025	At September 30, 2026	At December 31, 2025
Assets				
Available-for-sale securities ⁽¹⁾	\$ 14,724	\$ 11,402	\$ (515)	\$ (177)
Liabilities				
Long-term debt ⁽²⁾	10,939	11,066	(391)	1

(1) Amounts represent the amortized cost basis of closed portfolios used to designate hedging relationships under the portfolio layer method. The hedged item is a layer of the closed portfolio that is expected to be remaining at the end of the hedging relationship.

(2) Excluded from the above table are the cumulative amounts of fair value hedge adjustments remaining for long-term debt for which hedge accounting has been discontinued in the amounts of \$(32) million at September 30, 2026 and \$(42) million at December 31, 2025.

Cash Flow Hedges

At September 30, 2026, Huntington had \$24.8 billion of interest rate swaps and floors that are designated as cash flow hedges for variable-rate commercial loans. The change in the fair value of a derivative instrument designated as a cash flow hedge is initially recognized in OCI and is reclassified into income when the hedged item impacts earnings. The initial premium paid for the interest rate floor contracts represents the time value of the contracts and is not included in the measurement of hedge effectiveness. The initial premium paid is amortized on a straight-line basis as a reduction to interest income over the contractual life of these contracts.

At September 30, 2026, net losses recognized in AOCI that are expected to be reclassified into earnings within the next 12 months totaled \$8 million.

Derivatives used in mortgage banking activities

Mortgage loan origination hedging activity

Huntington uses derivatives, principally loan sale commitments, in hedging its mortgage loan interest rate lock commitments and its mortgage loans held for sale. Mortgage loan sale commitments and the related interest rate lock commitments are carried at fair value on the Unaudited Consolidated Balance Sheets with changes in fair value reflected in mortgage banking income. Huntington's mortgage origination hedging activity is related to economically hedging Huntington's mortgage pricing commitments to customers and the secondary sale to third parties. The value of a newly originated mortgage is not firm until the interest rate is committed or locked. Forward commitments to sell economically hedge the possible loss on interest rate lock commitments due to interest rate change. These derivatives were in a net asset position of \$40 million at September 30, 2026 and \$2 million at December 31, 2025. At September 30, 2026 and December 31, 2025, Huntington had commitments to sell residential real estate loans of \$1.8 billion and \$1.2 billion, respectively. These contracts mature in less than one year.

MSR hedging activity

Huntington also uses certain derivative financial instruments to offset changes in value of its MSRs. These derivatives consist primarily of forward interest rate agreements and forward mortgage contracts. The derivative instruments used are not designated as qualifying hedges. Accordingly, such derivatives are recorded at fair value with changes in fair value reflected in mortgage banking income. Huntington's MSR economic hedging activity uses securities and derivatives to manage volatility of the MSR asset value to mitigate the risks inherent in the MSR assets, which include duration, basis, convexity, and volatility. The hedging instruments include forward commitments, TBA securities, Treasury future contracts, and interest rate swaps.

Table of Contents

MSR hedging trading assets and liabilities are included in other assets and other liabilities, respectively, in the Unaudited Consolidated Balance Sheets. Trading gains (losses) are included in mortgage banking income in the Unaudited Consolidated Statements of Income. The notional value of the derivative financial instruments, the corresponding trading assets and liabilities positions, and net trading gains (losses) related to MSR hedging activity are summarized in the following tables.

<i>(dollar amounts in millions)</i>	At September 30, 2026	At December 31, 2025
Notional value	\$ 2,042	\$ 2,658
Trading liabilities	79	18

<i>(dollar amounts in millions)</i>	Three Months Ended		Nine Months Ended	
	September 30, 2026	September 30, 2025	September 30, 2026	September 30, 2025
Trading gains (losses)	\$ (80)	\$ 4	\$ (82)	\$ 13

Derivatives used in customer-related activities

Various derivative financial instruments are offered to enable customers to meet their financing and investing objectives and for their risk-management purposes. Derivative financial instruments used in trading activities consist of commodity, interest rate, and foreign exchange contracts. Huntington enters into offsetting third-party contracts with approved, reputable counterparties with substantially matching terms and currencies in order to economically hedge significant exposure related to derivatives used in trading activities.

The interest rate or price risk of customer derivatives is mitigated by entering into similar derivatives having offsetting terms with other counterparties. The credit risk to these customers is evaluated and included in the calculation of fair value.

The net fair values of these derivative financial instruments, for which the gross amounts are included in other assets or other liabilities, was \$85 million and \$58 million at September 30, 2026 and December 31, 2025, respectively. The total notional values of derivative financial instruments used by Huntington on behalf of customers, including offsetting derivatives, were \$51.8 billion and \$52.8 billion at September 30, 2026 and December 31, 2025, respectively. Huntington's credit risk from customer derivatives was \$71 million and \$168 million at the same dates, respectively.

Credit derivative instruments

Huntington enters into credit default swaps to hedge credit risk associated with certain loans and leases. These contracts are accounted for as derivatives, and accordingly, these contracts are recorded at fair value.

Financial assets and liabilities that are offset in the Unaudited Consolidated Balance Sheets

Huntington records derivatives at fair value as further described in Note 14 - "[Fair Values of Assets and Liabilities](#)".

Derivative balances are presented on a net basis taking into consideration the effects of legally enforceable master netting agreements. Additionally, collateral exchanged with counterparties is also netted against the applicable derivative fair values. Huntington enters into derivative transactions with two primary groups: 1) broker-dealers and banks and 2) Huntington's customers. Different methods are utilized for managing counterparty credit exposure and credit risk for each of these groups.

Huntington enters into transactions with broker-dealers and banks for various risk management purposes. These types of transactions generally are high dollar volume. Huntington enters into collateral and master netting agreements with these counterparties and routinely exchanges cash and high quality securities collateral.

Huntington also enters into transactions with customers to meet their financing, investing, payment, and risk-management needs. These types of transactions generally are low dollar volume. Huntington enters into master netting agreements with customer counterparties; however, collateral is generally not exchanged with customer counterparties.

2026 3Q Form 10-Q 85

[Table of Contents](#)

In addition, Huntington clears certain derivative transactions through a clearinghouse, rather than directly with counterparties. Transactions cleared through a clearinghouse require initial margin collateral and variation margin payments depending on the contracts being in a net asset or liability position.

In addition to the customer derivative credit exposure, aggregate credit risk associated with broker-dealer and bank derivative transactions was net credit risk of \$306 million and \$73 million at September 30, 2026 and December 31, 2025, respectively. The net credit risk associated with derivatives is calculated after considering master netting agreements and is reduced by collateral that has been pledged by the counterparty.

At September 30, 2026, Huntington pledged \$467 million of investment securities and cash collateral to counterparties, while other counterparties pledged \$550 million of investment securities and cash collateral to Huntington to satisfy collateral netting agreements. In the event of credit downgrades, Huntington would not be required to provide additional collateral.

The following tables present the gross amounts of these assets and liabilities with any offsets to arrive at the net amounts recognized in the Unaudited Consolidated Balance Sheets.

Offsetting of Financial Assets and Derivative Assets

(dollar amounts in millions)	Gross amounts of recognized assets	Gross amounts offset in the unaudited consolidated balance sheets	Net amounts of assets presented in the unaudited consolidated balance sheets	Gross amounts not offset in the unaudited consolidated balance sheets		Net amount
				Financial instruments	Cash collateral received	
At September 30, 2026	\$ 1,244	\$ (746)	\$ 498	\$ (22)	\$ (3)	\$ 473
At December 31, 2025	507	(260)	247	(2)	(100)	145

Offsetting of Financial Liabilities and Derivative Liabilities

(dollar amounts in millions)	Gross amounts of recognized liabilities	Gross amounts offset in the unaudited consolidated balance sheets	Net amounts of liabilities presented in the unaudited consolidated balance sheets	Gross amounts not offset in the unaudited consolidated balance sheets		Net amount
				Financial instruments	Cash collateral delivered	
At September 30, 2026	\$ 1,597	\$ (337)	\$ 1,260	\$ (211)	\$ (256)	\$ 793
At December 31, 2025	519	(169)	350	(120)	(15)	215

16. VARIABLE INTEREST ENTITIES

Consolidated VIEs

Huntington engages in activities with VIEs in the normal course of business that result in Huntington being the primary beneficiary and which are consolidated in Huntington's financial statements. The following table provides a summary of the assets and liabilities of VIEs carried on Huntington's Unaudited Consolidated Balance Sheets.

(dollar amounts in millions)	At September 30, 2026	At December 31, 2025
Assets		
Net loans and leases	\$ 415	\$ 669
Other assets	454	431
Total assets	<u>\$ 869</u>	<u>\$ 1,100</u>
Liabilities		
Long-term borrowings	\$ 352	\$ 600
Other liabilities	117	152
Total liabilities	<u>\$ 469</u>	<u>\$ 752</u>

[Table of Contents](#)

Huntington previously completed a securitization transaction by transferring automobile loans to a SPE which was deemed to be a VIE, with the SPE in turn issuing asset-backed notes. The primary purpose of the VIE in the securitization transaction was to issue asset-backed securities with varying levels of credit subordination and payment priority. Huntington retained notes and residual interest in the VIE and, therefore, has an obligation to absorb losses and a right to receive benefits that could potentially be significant to the VIE. In addition, Huntington retained servicing rights for the underlying loans and, therefore, holds the power to direct the activities of the VIE that most significantly impact the economic performance of the VIE. The assets of the VIE are restricted to the settlement of the asset-backed securities and other obligations of the VIE. Third-party holders of the asset-backed notes do not have recourse to the general assets of Huntington.

The economic performance of the VIE is most significantly impacted by the performance of the underlying loans. The VIE is exposed to credit and prepayment risk, which are managed through credit enhancements in the form of reserve accounts, over-collateralization, excess interest on the loans, and the subordination of certain classes of asset-backed securities.

Consolidated VIEs at September 30, 2026 and December 31, 2025 also included investments in LIHTC operating entities that were syndicated and where we serve as the general partner and manager. As manager of these entities, we have the power to direct the activities that most significantly impact economic performance, as well as an obligation to absorb significant expected losses, of the entities.

Unconsolidated VIEs

The following tables provide a summary of the assets and liabilities included in Huntington's Unaudited Consolidated Financial Statements, as well as the maximum exposure to losses, associated with its interests related to unconsolidated VIEs for which Huntington holds an interest in, but is not the primary beneficiary.

<i>(dollar amounts in millions)</i>	Total Assets	Total Liabilities	Maximum Exposure to Loss
At September 30, 2026			
Affordable housing tax credit partnerships	\$ 3,107	\$ 1,239	\$ 3,107
Trust preferred securities	14	248	—
Other investments	1,936	334	1,936
Total	\$ 5,057	\$ 1,821	\$ 5,043
At December 31, 2025			
Affordable housing tax credit partnerships	\$ 2,453	\$ 946	\$ 2,453
Trust preferred securities	14	262	—
Other investments	1,465	196	1,465
Total	\$ 3,932	\$ 1,404	\$ 3,918

Affordable Housing and Other Tax Credit Investments

Huntington makes certain equity investments in various limited partnerships that sponsor affordable housing projects utilizing the LIHTC pursuant to Section 42 of the Internal Revenue Code. The purpose of these investments is to achieve a satisfactory return on capital, to facilitate the sale of additional affordable housing product offerings, and to assist in achieving goals associated with the Community Reinvestment Act. The primary activities of the limited partnerships include the identification, development, and operation of multi-family housing that is leased to qualifying residential tenants. Generally, these types of investments are funded through a combination of debt and equity.

Huntington uses the proportional amortization method to account for a majority of its investments in these entities. These investments are included in other assets. Investments that do not meet the requirements of the proportional amortization method are accounted for using the equity method. Investment losses are included in Other noninterest income in the Unaudited Consolidated Statements of Income.

[Table of Contents](#)

The following table presents the balances of Huntington's affordable housing tax credit investments and related unfunded commitments.

<i>(dollar amounts in millions)</i>	At September 30, 2026	At December 31, 2025
Affordable housing tax credit investments	\$ 4,753	\$ 3,898
Less: amortization	(1,646)	(1,445)
Net affordable housing tax credit investments	\$ 3,107	\$ 2,453
Unfunded commitments	\$ 1,239	\$ 946

The following table presents other information relating to Huntington's affordable housing tax credit investments.

	Three Months Ended		Nine Months Ended	
	September 30, 2026	September 30, 2025	September 30, 2026	September 30, 2025
(dollar amounts in millions)				
Tax credits and other tax benefits recognized	\$ 108	\$ 86	\$ 329	\$ 259
Proportional amortization expense included in provision for income taxes	84	68	251	209

The initial investment in affordable housing tax credit investments and subsequent tax credits, benefits, and amortization are included within operating activities in the Unaudited Consolidated Statements of Cash Flows.

Trust-Preferred Securities

Huntington has certain wholly owned trusts whose assets, liabilities, equity, income, and expenses are not included within Huntington's Unaudited Consolidated Financial Statements. These trusts have been formed for the sole purpose of issuing trust-preferred securities, from which the proceeds are then invested in Huntington junior subordinated debentures, which are reflected in Huntington's Unaudited Consolidated Balance Sheet as long-term debt. The trust securities are the obligations of the trusts, and as such, are not consolidated within Huntington's Unaudited Consolidated Financial Statements.

Other Investments

Other investments determined to be VIEs include investments in Small Business Investment Companies, Historic Tax Credit Investments, certain equity method investments, renewable energy financings, and other miscellaneous investments.

17. COMMITMENTS AND CONTINGENT LIABILITIES

Commitments to Extend Credit

In the ordinary course of business, Huntington makes various commitments to extend credit that are not reflected in the Unaudited Consolidated Financial Statements. The contract amounts of these financial agreements were as follows:

(dollar amounts in millions)	At September 30, 2026	At December 31, 2025
Contract amount representing credit risk		
Commitments to extend credit:		
Commercial and industrial	\$ 58,865	\$ 47,736
Consumer loan portfolio	24,273	21,659
Commercial real estate	5,721	4,036
Standby letters of credit and guarantees on industrial revenue bonds	1,977	895

[Table of Contents](#)

Commitments to extend credit generally have fixed expiration dates, are variable-rate, and contain clauses that permit Huntington to terminate or otherwise renegotiate the contracts in the event of a significant deterioration in the customer's credit quality. These arrangements normally require the payment of a fee by the customer, the pricing of which is based on prevailing market conditions, credit quality, probability of funding, and other relevant factors. Since many of these commitments are expected to expire without being drawn upon, the contract amounts are not necessarily indicative of future cash requirements. The interest rate risk arising from these financial instruments is insignificant as a result of their predominantly short-term, variable-rate nature. Certain commitments to extend credit are secured by collateral, including residential and commercial real estate, inventory, receivables, cash and securities, and other business assets.

Standby letters-of-credit and guarantees on industrial revenue bonds are conditional commitments issued to guarantee the performance of a customer to a third-party. These conditional commitments are primarily issued to support public and private borrowing arrangements, including commercial paper, bond financing, and similar transactions and mature within two years. Since the conditions under which Huntington is required to fund these conditional commitments may not materialize, the cash requirements are expected to be less than the total outstanding commitments. The carrying amount of deferred revenue associated with these conditional commitments was \$46 million and \$31 million at September 30, 2026 and December 31, 2025, respectively.

Other Guarantees

Huntington provides guarantees to certain third-party investors in connection with the sale of syndicated affordable housing tax credits. These guarantees are generally in the form of make-whole provisions that are triggered if the underlying performance of LIHTC properties result in a shortfall to the third-party investors and remain in effect until the final associated tax credits are realized. The maximum amount guaranteed by the Company under these arrangements total approximately \$405 million and \$366 million at September 30, 2026 and December 31, 2025, respectively, and represents the guaranteed portion in these transactions where the make-whole provisions have not yet expired. As of September 30, 2026, the Company did not expect to be subject to any make-whole provisions under these guarantees.

Litigation and Regulatory Matters

In the ordinary course of business, Huntington is, or may be a defendant in, or party to pending and threatened legal and regulatory actions and proceedings.

In view of the inherent difficulty of predicting the outcome of such matters, particularly where the claimants seek very large or indeterminate damages or where the matters present novel legal theories or involve a large number of parties, Huntington generally cannot predict what the eventual outcome of the pending matters will be, what the timing of the ultimate resolution of these matters will be, or what the eventual loss, fines, or penalties related to each matter may be.

Huntington establishes an accrued liability when those matters present loss contingencies that are both probable and estimable. In such cases, there may be an exposure to loss in excess of any amounts accrued. Huntington thereafter continues to monitor the matter for further developments that could affect the amount of the accrued liability that has been previously established.

For certain matters, Huntington is able to estimate a range of possible loss. In cases in which Huntington possesses information to estimate a range of possible loss, that estimate is aggregated and disclosed below. There may be other matters for which a loss is probable or reasonably possible but such an estimate of the range of possible loss may not be possible. For those matters where an estimate of the range of possible loss is possible, management currently estimates the aggregate range of reasonably possible loss is \$0 to \$70 million at September 30, 2026 in excess of the accrued liability (if any) related to those matters. This estimated range of possible loss is based upon currently available information and is subject to significant judgment, a variety of assumptions, and known and unknown uncertainties. The matters underlying the estimated range will change from time to time, and actual results may vary significantly from the current estimate. The estimated range of possible loss does not represent Huntington's maximum loss exposure.

2026 3Q Form 10-Q 89

Table of Contents

Based on current knowledge, management does not believe that loss contingencies arising from pending matters will have a material adverse effect on the consolidated financial position of Huntington. Further, management believes that amounts accrued are adequate to address Huntington's contingent liabilities. However, in light of the inherent uncertainties involved in these matters, some of which are beyond Huntington's control, and the large or indeterminate damages sought in some of these matters, an adverse outcome in one or more of these matters could be material to Huntington's results of operations for any particular reporting period.

The following is a description of a legal proceeding in which Huntington or its predecessors are involved:

Donelon v. Americas Insurance Co., No. 714,982 (19th Jud. Dist. Ct., Parish of E. Baton Rouge, La.), consolidated with *Cadence Bank v. Bostick*, No. 717212 (19th Jud. Dist. Ct., Parish of E. Baton Rouge, La.) (filed January 13, 2023). This action arises from an \$8 million loan Cadence Bank made in November 2020 under the Federal Reserve's Main Street Lending Program ("MSLP") to a holding company, which owned an insurance carrier, which carrier was later placed into receivership following substantial losses associated with the August 2021 Category 4 Hurricane Ida. The action, brought by the receiver on behalf of the Louisiana Insurance Commission, alleges the MSLP loan required insurance regulatory approval that was not properly obtained by the insurance company. The receiver alleges the MSLP loan improperly enabled the insurer to continue operations, which allegedly may not have occurred but for the MSLP loan. Cadence has consistently denied all allegations of wrongdoing and that any alleged damages were the result of the MSLP loan.

The parties have reached a tentative resolution, and settlement documentation is being prepared. All court dates and deadlines, including the trial date, have been stayed pending finalization of the settlement.

18. SEGMENT REPORTING

Huntington's business segments are based on our internally aligned segment leadership structure, which is how management monitors results and assesses performance. Huntington reports on two business segments: Consumer & Regional Banking and Commercial Banking. All other items not included within our two business segments are reported within the Treasury / Other function, which primarily includes technology and operations, other unallocated assets, liabilities, revenue, and expenses. For a description of our business segments, see Note 25 - "Segment Reporting" to the Consolidated Financial Statements appearing in Huntington's 2025 Annual Report on Form 10-K.

The following tables present certain operating basis financial information for each reportable business segment reconciled to Huntington's consolidated financial results.

<i>(dollar amounts in millions)</i>	Consumer & Regional Banking	Commercial Banking	Treasury / Other	Huntington Consolidated

Item 3: Quantitative and Qualitative Disclosures about Market Risk

Quantitative and qualitative disclosures for the current period can be found in the Market Risk section of this report, which includes changes in market risk exposures from disclosures presented in Huntington's 2025 Annual Report on Form 10-K.

Item 4: Controls and Procedures
Disclosure Controls and Procedures

Huntington maintains disclosure controls and procedures designed to ensure that the information required to be disclosed in the reports that it files or submits under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and

forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. Huntington's management, with the participation of its Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of Huntington's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of September 30, 2026. Based upon such evaluation, Huntington's Chief Executive Officer and Chief Financial Officer have concluded that, as of September 30, 2026, Huntington's disclosure controls and procedures were effective.

Changes in Internal Controls Over Financial Reporting

There have not been any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended September 30, 2026 that have materially affected, or are reasonably likely to materially affect, internal control over financial reporting.

PART II. OTHER INFORMATION

In accordance with the instructions to Part II, the other specified items in this part have been omitted because they are not applicable, or the information has been previously reported.

Item 1: Legal Proceedings

Information required by this item is set forth in Note 17 - "[Commitments and Contingent Liabilities](#)" of the Notes to Unaudited Consolidated Financial Statements under the caption "[Litigation and Regulatory Matters](#)" and is incorporated into this Item by reference.

Item 1A: Risk Factors

In addition to the other information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the risk factors discussed in Part I, "Item 1A. Risk Factors" in our 2025 Annual Report on Form 10-K, which could materially affect our business, financial condition, or results of operations. There have been no material changes to the risk factors previously disclosed in our 2025 Annual Report on Form 10-K.

2026 3Q Form 10-Q 92

Table of Contents

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(a) and (b)

Not Applicable

(c) In April 2026, our Board of Directors authorized the repurchase of up to \$3.0 billion of our common shares. The timing of share repurchases depends upon marketplace conditions and other factors, and the program remains subject to the discretion of our Board of Directors.

The table below presents information with respect to purchases made by or on behalf of the Company or any "affiliated purchaser" (as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), for each of the three months in the period ended September 30, 2026:

<i>(dollars in millions, except per share data, shares in thousands)</i>	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value that may yet be Purchased Under the Plans or Programs ⁽¹⁾
July 1, 2026 to July 31, 2026	—	\$ —	—	\$ 2,950
August 1, 2026 to August 31, 2026	2,843	17.59	2,843	2,900
September 1, 2026 to September 30, 2026	3,220	15.53	3,220	2,850
Total	6,063	\$ 16.49	6,063	

(1) The number shown represents, as of the end of each period, the approximate dollar value of Common Stock that may yet be purchased under publicly-announced share repurchase authorizations.

Item 5. Other Information

Trading Plans

During the three months ended September 30, 2026, no director or officer (as defined in Rule 16a-1(f) under the Exchange Act) of the Company adopted or terminated a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as each term is defined in Item 408(a) of Regulation S-K.

CERTIFICATION

I, Stephen D. Steinour, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Huntington Bancshares Incorporated;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations, and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)), for the registrant and have:
 - a. designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize, and report financial information; and
 - b. any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
